

REGARDING EXAMINATIONS

I believe members of the faculty will appreciate an explanation as to why I have not been giving approval to requests by students to take their final examinations early or otherwise out of schedule. Fundamentally, the policy protects faculty members from unreasonable demands by students. In 1943, I tried to rationalize certain exceptions, which brought on a stream of requests which kept us busy for two weeks in endless discussion of the comparative merits of the reasons for considering the requests. I hope we shall not have to repeat the experience.

Please give grade of "Incomplete" only in case of real emergency, and with the understanding that it is the responsibility of the teacher who gives a grade of "I" to see that it is removed in 30 days or to turn in to the Registrar a grade of "F" to replace the "I".
