95 PERCENT OF M.B.A. INTERNS PLACED

The Neeley School continues to experience success with its M.B.A. internship program six years after it began. This summer 95 percent of the students seeking internships were placed, according to Assistant Dean Linda Smith.

The 1994 placement pace is up from last year's 88 percent rate. More M.B.A. candidates than any previous year were placed this summer, with 55 students receiving assignments.

Sponsoring companies agree to provide students with professional-level experience and offer work that engages students' analytical and communication skills. While some businesses assign students various projects during their internships, other organizations allow them to spend time in several different departments to gain an appreciation of how the whole business functions.

Nine new sponsors accepted TCU interns this year, and several organizations, including Harris Methodist Health Systems and Alcon Labs, increased their participation dramatically, Linda said.

"With 36 new sponsors over the last three years, I am optimistic about next year's program," she said. "And I continue to be amazed at the strength of the Neeley School's corporate network."

In addition to Harris and Alcon, the 27 organizations sponsoring TCU interns include American Industries International, Apple Computer, Arthur Andersen, Bank One, Bell Helicopter, The Bombay Company, Burlington Northern, Charles Tandy American Enterprise Center, Color Tile and Dr Pepper/7-Up.

Also participating are Dallas/Fort Worth International Airport, Electronic Data Systems, Famaceuticos Lakeside, the *Fort Worth Star-Telegram*, Integrated Systems Solutions Corp. (IBM), Luther King Capital Management, Pacific Stock Exchange, PepsiCo Food System, Pier 1 Imports, Tandy Corp., TCU Information Services, Texas Commerce Bank, Texas Rangers, USPCI Inc. and Williamson-Dickie.

TICKET SALES GAINING GROUND

TCU's season football ticket sales have already matched last year's, with the biggest sales month yet to come, said Lois Kolkhorst, athletics marketing and promotions director.

"We're well ahead of last year's pace, even with a number of outstanding renewals," she said. "It's incredible to have matched last year's season ticket sales (7,137) and it's not even August. We want to keep that momentum going."

Lois credits family package ticket savings, more entertainment offerings for kids and adults, and Committee of 100 efforts with the impressive sales.

(continued)

TCU BULLETIN/2 7/26/94

HOME TEAM SUPPORT (cont.)

Some 21,000 single-game corporate tickets have been purchased for the 1994 football season, and more than 1,500 season tickets have been sold to people who did not buy tickets last year (up from 375). A five-week telemarketing campaign, which concluded July 21, sold more than 650 season ticket packages, up from 265 last year, Lois said.

NSF-FUNDED PROGRAM CONCLUDES

Six undergraduate students from universities across the United States are participating in a National Science Foundation-funded program and will conclude their two-month study at TCU later this week.

An \$87,000 NSF grant to mathematics faculty members Rhonda Hatcher and George Gilbert has funded this year's Research Experiences for Undergraduates (REU) site in mathematics at TCU.

The grant will allow Rhonda and George, who have participated in the REU program since 1992, to conduct summer research programs for undergraduates during the summers of 1995 and 1996. Math faculty member David Addis also has served as a faculty associate for the project.

TCU is one of only 21 REU math sites in the United States and the only university in Texas to host the NSF-funded program this summer.

This year's undergraduate researchers are students at Abilene Christian University, California Institute of Technology, Harvard University, McMurry University, Princeton University and the University of Texas at Austin. The group has been examining computational group theory by researching problems centered on the mathematical structure of sliding piece puzzles.

Students participate in lectures and software training and receive instruction on writing scientific papers, making presentations and problem research. "Students are doing real research just as a mathematics professor would, but on a much smaller scale and a much shorter time frame," George said.

BRITE TRUSTEE DIES

Harrell A. Rea, who served on the TCU Board of Trustees from 1973 to 1982 and on the Brite Board of Trustees for 16 years, died on July 11 at his home in Fort Worth. He was 76.

The Rev. Rea was a 1938 graduate of TCU and a 1942 graduate of Brite. He received an honorary degree from TCU in 1977 and was a honorary Brite trustee from 1990 until his death.

The Rev. Rea served pastorates in Temple and Galveston and had been a member of numerous church boards and commissions. He retired in 1982 as Southwest regional minister of the Christian Church (Disciples of Christ), a position he had held since 1973. He also served as director of Christian education at First Christian Church in Fort Worth.

Survivors include his wife, Dorothy Arnett Rea of Fort Worth (Class of 1941); his son, Robert A. Rea of Breckenridge, Colo.; his daughter, Melanye Wrighton of Phoenix; and two grandchildren. The family suggests that memorials be made to a charity or the Rea-Arnett Scholarship Fund at Brite, which benefits Brite students and honors the memory of Mr. and Mrs. E.C. Arnett, parents of Mrs. Rea.

FALL MLA CLASSES BEGIN AUG. 24

Master of Liberal Arts courses slated for fall will explore a variety of topics, from American music and the U.S. economy to the British comic novel and World War II's impact on the modern world. Classes begin Aug. 24, and all but one meet from 6:30 to 9:10 p.m.

Offerings include:

- •John Bohon (history) will give his "farewell performance" to the MLA program in a course on World War II and its impact on the contemporary world (MALA 7653). Classes will be held on Thursdays.
- A rare and popular offering in fine arts will be taught by Curt Wilson (music). "American Music and Culture: From Jazz to Tin Pan Alley" (MALA 7703) will meet on Tuesdays to examine the effect of musical styles on cultural changes in America.
- New this fall: "The British Comic Novel" (MALA 7083) will explore the comic tradition in the British novel from the 18th century to the present. The course will be taught by Keith Odom (English) on Wednesdays.
- "The U.S. Economy: Analysis and Outlook" (MALA 6263) will be taught by Edward McNertney (economics) on Mondays. Students will use a computer simulation model to analyze the impact of selected policy changes. No prior computer experience is required.
- In "Mass Media and Perceptions of Reality" (MALA 7183), students will examine the perceptions of reality that the media create and the reasons some of those perceptions occur. The class will be taught by Doug Newsom (journalism) on Mondays.
- "Understanding Behavior: A Look at Four Cultures" (MALA 7213) will introduce students to concepts and methods of ethnography through the study of four different types of societies. The course will be taught by Andy Miracle (anthropology) on Tuesdays.
- A 12-week course on recent American-Jewish fiction (MALA 6813) will meet Wednesdays from 9 a.m. to noon. The class will be taught by David Vanderwerken (English).

The course fee and general University fee for a 3-credit-hour course will total \$700 for a part-time MLA student. For more information on courses, call the MLA office at Ext. 7515.

TCU TO HOUSE ACADEMIC JOURNAL

Marketing professor Dave Cravens has accepted a three-year appointment as editor of the *Journal* of the Academy of Marketing Science. The 20-year-old publication with a subscription base of 2,000 academic and business constituents is among the most prestigious journals in marketing. The editorial office of the publication will be housed at TCU during Dave's tenure as editor.

"Association with the journal will provide the Neeley School and the marketing department with a fair amount of visibility and offer the University reasonable international exposure," Cravens said.

Cravens, holder of TCU's Eunice and James L. West Chair of American Enterprise Studies, will be assisted by Jinger Lord, a 1992 graduate of the Neeley School M.B.A. program, along with administrative assistant Linda Blundell.

TCU BULLETIN/4 7/26/94

RANCH COURSE TO FOCUS ON BUSINESS

Tax management and estate planning will be just two of the topics discussed in an evening course on Ranch Business Management to be offered this fall. The class will meet on Tuesdays from 7 to 10 p.m. in Sid Richardson Lecture Hall 2.

Course topics also will include development and use of inventory and net worth statements; methods of computing depreciation; and basic financial and production records. Other subjects to be discussed include partnerships, corporations and trusts; agribusiness law; personnel management; and sources of agriculture credit. Ranch Management course tuition and fees for students enrolling for fewer than nine semester hours is \$933.

Registration for the course is Aug. 22 from 5 to 6:30 p.m. in the Rickel Building. Late registration is Aug. 30 from 5:30 to 6:30 p.m. in Sid Richardson Lecture Hall 2. Full-time students may enroll in Ranch Management courses during their regular daytime registration period on Aug. 23.

TCU graduates are eligible to enroll at half the cost of current tuition on a first-come, first-served basis. They must register in person Aug. 25 in Sadler Hall Room 17 beginning at 8:15 a.m. All registration payments must be made by check. Students may call the Ranch Management office at Ext. 7145 to request registration information.

Using course outlines from the day program, regular faculty members teach one evening course each semester for ranchers and others who are unable to attend the full-time, yearlong program. Students are awarded certificates after completing all seven.

Upcoming evening courses include: ranch conservation and development, spring of 1995; marketing of livestock and meats, fall 1995; beef cattle production, spring 1996; grassland management, fall 1996; animal nutrition and feeding, spring 1997; and animal health and reproduction, fall 1997.

'FROG LIPS' FOR SALE

TCU Jazz Studies Director Curt Wilson hopes that "Frog Lips" will sell like hotcakes this summer. That's the title of the TCU Jazz Ensembles' latest recording and the name of an original work by Curt included on the new compact disc, which is the ensembles' third. Curt credits his wife, Kay, with the unusual title.

"Frog Lips" CDs sell for a special summer price of \$10 and are available in Ed Landreth Hall Room 100.

The new release features performances by alumnus Leon Breeden, the late Rich Matteson, jazz trumpeter Marvin Stamm and Hollywood composer/conductor Patrick Williams. Groups who performed for the recording include the 1993-94 Monday-Wednesday-Friday Band; the Purple, White and Blues Vocal Jazz Ensemble, directed by graduate student Rob Laney; the TCU Symphony Orchestra, directed by Kurt Sprenger (music); and Jazz Ensembles from 1991 to 1993.

Portable digital equipment made a graceful blending of studio and live performances possible, Curt said. The recording is the eighth done by the Jazz Ensembles, which started its recording career with the "What Have They Done To My Song, Ma" album in 1977.

TCU BULLETIN/5 7/26/94

ATHLETIC FORUM SET FOR AUG. 4

Head coaches Pat Sullivan (football), Lance Brown (baseball) and Billy Tubbs (basketball) will join forces for a TCU Athletic Forum August 4 at the Royal Oaks Country Club in Dallas. The event is sponsored by the TCU Dallas Alumni Chapter, the Dallas Young Alumni Chapter and the Collin County Alumni Chapter.

The cost for the forum, which including dinner, is \$18. A cash reception will launch the event at 6:30 p.m. The deadline for reservations is Aug. 2. Call Ext. 7803 for more information.

ASBESTOS REMOVAL COMPLETED

Asbestos removal from the stairwell ceilings in Sadler Hall was completed ahead of schedule July 16. Independent contractor Western Environmental Services, an asbestos abatement firm licensed by the Texas Department of Health, began removing the sprayed-on acoustic ceiling texture July 5.

The project was performed in strict compliance with applicable Environmental Protection Agency, Occupational Safety and Health Administration and Texas Department of Health regulations, said Will Stallworth, physical plant director.

Removal of the asbestos material was performed between the hours of 6 p.m. and 6 a.m. During the removal, stairwells were fully contained in a vacuum state, which prevented asbestos fibers from escaping.

Industrial Hygiene and Safety Technology Inc., another independent contractor, analyzed air samples collected outside the contained areas during and after the removal process and found them to be in full compliance with EPA clean air standards.

IHST also sampled air in the stairwells prior to abatement and certified that it was free of asbestos fibers, Stallworth said. As scaffolding was removed following the job, harmless dust and dirt may have escaped. He said that no asbestos would have been present in the debris.

Re-finishing of ceilings and re-painting of walls in the stairwells are expected to be completed by the end of the week.

TCU Safety Director Randy Cobb (Ext. 7220) is available to answer questions about the removal project.

EVANS TO ROUND OUT STAFF

Terry Evans, a former player at the University of Oklahoma, was recently named assistant basketball coach. Evans fills the last vacancy on head coach Billy Tubbs' staff.

A 1993 graduate of O.U., Terry was a four-year starter at point guard for Tubbs from 1989 to 1993. The three-time academic All-American holds the Big Eight Conference record for three-point scoring and also holds the Sooners' all-time assist and steal records.

A native of Oklahoma City, Evans graduated from Millwood High School, where he was named 3A Player of the Year during his final season after leading the Falcons to a 28-1 record and the 3A state championship. After a brief stint in professional basketball overseas, Evans worked as a registered representative for Primerica Financial Services.

TCU BULLETIN/6 7/26/94

PARKING PERMITS GO ON SALE

Parking permits for the 1994-95 year will go on sale Aug. 8 for vehicles using University parking areas. Traffic citations for non-current permits will be issued after that date. 1993-94 stickers will expire on Aug. 31.

The permit cost is \$25 for faculty and University staff members; the charge for general staff members is \$20. Employees who use the coliseum parking area may purchase a coliseum permit for \$5.

Permits must be paid for in the controller's office, Sadler 104. The receipt then must be taken to the Campus Police Office, 2905 Princeton St. Permits will be issued only upon presentation of the receipt; cash or checks cannot be accepted by the Campus Police office staff. Campus Police hours are from 7:45 a.m. to 4 p.m. Monday through Friday.

TCU PRESS HAS NEW PUBLICATION

TCU Press announces publication of Mexico Under Fire, Being the Diary of Samuel Ryan Curtis, 3rd Ohio Volunteer Regiment, during the American Military Occupation of Northern Mexico, 1846-1847, edited and annotated by Joseph E. Chance. This previously unpublished diary records the intuitive reflections of an educated man who served as a military administrator in northern Mexico during the Mexican War.

Col. Samuel Ryan Curtis, engineer, lawyer and graduate of West Point, arrived in Mexico in July of 1846 as commander of the 3rd Ohio Volunteer Regiment to find a volatile and chaotic situation in occupied towns along the Rio Grande. American civilians of the lowest sort mingled with Mexican townspeople, robbing, murdering and raping. Neither civil nor military law made provisions for governing municipalities under such conditions. Nor was the U.S. military prepared for a guerilla struggle against renegade Mexican soldiers and bandits.

Mexico under Fire is Curtis' story of maintaining order under nearly impossible conditions, of death and suffering in his regiment from disease, not fighting, and of the tedium of army life.

Curtis was a keen observer who chronicled martial unrest and political conditions in Matamoros, Camargo and Saltillo. He also documented social and economic circumstances, as well as flora and fauna, even the weather.

Joseph E. Chance is a professor of mathematics at the University of Texas-Pan American in Edinburg. The book is available in the University bookstore or by calling 1-800-826-8911.

NOTES ON FOLKS

A review of Roger Simpson's Camelot Regained: The Arthurian Revival and Tennyson 1800-1849 by Linda Hughes (English) appeared in the most recent issue of Victorian Periodicals Review.

Forrest Newlin (theatre) has been named president-elect of the Southwest Theater Association. He will assume the office at the association's convention in New Orleans in November.

Linda Gilley (communications and public affairs) sang with the Alta Mesa Chorale, a community-based choir, at the National Cathedral July 3 and at the White House on July 5. The group was accompanied by News Service Director Betty Knox, who will retire at the end of this month.

Michael Meckna (music) served as a proposal reviewer for the National Endowment for the Humanities, Division of Preservation and Access, in early July.

TCU BULLETIN/7 7/26/94

NOTES ON FOLKS

Ronald Shearer (history) has received two internal grants from TCU for the current year. One, from the Instructional Development Fund, will help acquire a large slide collection for courses in Western Civilization and for connection to the University computer network. The second, from the TCU Research Fund, will support research for his current project on conscript and forced labor in German heavy industry in the 1930s and 1940s. Ronald spent part of last summer researching this project in Germany, funded by a grant from the German Academic Exchange Service.

Recent B.F.A. graduates Lauren DiRusso and Shannon Armstrong won honors at the Dallas Society of Visual Communication's annual student competition and exhibition this spring. Lauren won "Best of Category" recognition in logo design and Shannon was recognized in a special judges' category.

Julie Ann Mason, a 1991 alumna and adjunct faculty member, died of a stroke following child birth at Baylor University Medical Center in Dallas on July 12. She was 32. A research psychologist and advocate for homeless children, she served as an adjunct faculty member at TCU as well as the University of Texas at Dallas and the University of Texas Southwestern Medical Center. She is survived by her daughter and husband, Michael Snitman of Dallas, her mother and a sister. Memorials may be made to her employer, Timberlawn Psychiatric Research Foundation, 2750 Grove Hill Road, P.O. Box 270789, Dallas, Texas 75227.

Mark Thistlethwaite (art and art history) recently spoke on "The Whys and Ways of Art Criticism" for the North Texas Institute for Educators in the Visual Arts and presented a gallery talk at the Dallas Museum of Art titled "Rediscovering History Painting." This talk was presented in conjunction with the exhibition "Picturing History," for which Mark served as a consultant.

An article on "Hume, Human Nature and History" by **Spencer Wertz** (philosophy) will be reprinted in a volume on Hume in a series called *Great Political Thinkers* to be published next year by Edward Elgar of London.

An article co-authored by **June Koelker** (library) titled "Ride the Tide: Libraries Empower People: Texas Library Association 1994 Annual Conference" appears in the summer 1994 issue of the *Texas Library Journal*.

Gail Davis (nursing) served as an instrumentation consultant to the Nursing Research Committee of the Dallas V.A. Hospital on June 27. The committee's one-day retreat, held in Grand Prairie, focused on the development of a nursing research instrument.

At the Bennington College Conference, "Sherlock Holmes: Victorian Sleuth to Modern Hero," held June 23-26 in Bennington, Vt., Fred Erisman (English) presented "'Data! Data! Data!': Holmesian Echoes in Star Trek: The Next Generation." The paper, which was co-authored by Fred's daughter, Wendy Erisman, examines how the television series uses overt references to Sherlock Holmes to develop the character of Data, the android second officer of the Starship Enterprise, as he pursues what it truly means to be human.

Mildred Hogstel (emeritus) and Linda Curry (nursing) have been notified that their manuscript "Ego Integrity Versus Despair in the Later Years" has been accepted for publication in the Journal of Clinical Geropsychology. Another manuscript by Linda and Joy Stone (adjunct faculty, nursing), titled "Understanding Elder Abuse: The Social Problem of the '90s," also has been accepted for publication by the journal.

Shari Barnes (human resources) interviewed Gloria Steinem for a recent segment of the City Cable show "Books in Review." Steinem's stop in Fort Worth was part of a national tour promoting her new book, Moving Beyond Words.

FACULTY, STAFF APPOINTMENTS

Page Doby has been appointed to the major gifts staff as senior development associate. She will be responsible for Tarrant County alumni in the 1961-65 class years and for a regional territory that includes portions of West and South Texas as well as the Upper Midwest. She also will help coordinate TCU's corporate and foundation relations program. Page formerly was an annual fund officer and director of the Corporate Annual Fund.

Joanne C. Green has accepted an appointment as an assistant professor of political science. Joanne holds a Ph.D. from the University of Florida and will teach courses in legislative policymaking, political participation and methodology.

Michelle Briscoe-Reed will be joining the political science department as an occasional faculty member, teaching African-American politics. She is currently completing her doctoral dissertation in political science at Northern Arizona University.

Mary Martin Patton, former assistant professor of early childhood education at the University of New Mexico in Albuquerque, has been appointed assistant professor of education in the Department of Curriculum and Instruction in the School of Education. She received her B.S., M.Ed. and Ph.D. degrees from the University of Texas at Austin.

Jean Walbridge has been hired to replace Lynn Evans as the Assistant to the Chancellor. A TCU graduate, Jean holds a bachelor of business administration degree and was previously employed as the associate publisher for the Fort Worth Cable Connection Magazine.

The new director of residential services is Roger Fisher. Previously employed by the University of Missouri, Roger holds a master's degree from Ball State University.

Shawn Murphy, a former on-call officer on campus, is the newest campus police officer. Before coming to TCU, Shawn worked for the Alvarado Police Department.

Mariusz Krawiec has been hired as a post doctoral fellow in chemistry. A 1994 Ph.D. graduate of TCU, he was previously employed by the University of Warsaw.

Deidra Garrett is a new service assistant I in Facility Services. Before coming to TCU, Deidra worked and lived in Springtown.

University Advancement's new administrative assistant I is **Janice Rainey**. Janice was formerly employed as a legal assistant by the law firm of Rohne, Hoodenpyle, Lobert, Myers and Scott in Arlington.

Ireri Garcia has been promoted to service assistant II in residential services. Employed by TCU since April 1992, she previously worked for Pulido's Restaurant.

Promoted to the position of registrar's assistant in the Registrar's office, Pat Henderson has been a TCU employee since October of 1988. She previously worked for First City National Bank in Arlington.

Marti Mueller has been promoted to the position of administrative assistant I in the Registrar's office. Employed by TCU since March 1992, she previously worked as an office employee for Dr. Gerald Cox.

TCU BULLETIN/9 7/26/94

TCU IN THE NEWS

Potential M.B.A. students in Hong Kong now are aware of TCU's Neeley School following articles in two publications. An report in Hong Kong's *The Sunday Magazine*, comparable to *Parade* magazine in the United States, mentioned TCU's M.B.A. program in a June 19 article. A story in the July 8 edition of *Recruit*, published by the H.K. Transit Publishing Co. Ltd. and distributed to 120,000 Hong Kong subway riders, profiled the Neeley School's graduate program.

TCU's new purple and white street signs were featured in a color photo on the cover of the July 9 Star-Telegram Metro section. An inside story, "Horned frogs on purple street signs mark TCU turf," quoted **Bob Bolen**, senior advisor to the chancellor, and Vice Chancellor **Edd Bivin**. TCU's Committee of 100 received coverage in the sports section of the same edition.

Alumna Evelyn Locke was mentioned in a June 26Star-Telegram Travel section story on Hamilton, Texas. Evelyn, who is a former piano teacher, spends her time "picking old tunes out on the piano and visiting with diners" at the Pecan Creek Inn Restaurant on the town's square. She's a member of TCU's Class of '36.

A story in the July 13 Star-Telegram sports section discussed the major academic lift the Western Athletic Conference will receive from the addition of TCU, SMU and Rice. The article, which cited a study of graduation rates that project the new members into the WAC and Big Eight conference, also said that the expanded Big 12 Conference will benefit slightly less from adding Texas, Texas A&M and Baylor.

July 14 's Star-Telegram was cover-to-cover TCU. A large color photo on the cover of the Metro section showed 5-year-old Alex Carroll taking a bow after a performance in the Suzuki Institute and Advanced String Camp on campus. Accompanist Jill Sprenger, wife of music faculty member Kurt Sprenger, also was in the photo. Kay Higgins, director of new student programs, and incoming freshman Shannon Neisler were quoted in a story on the cover of the business section titled "Objets d'orm," which discussed college students stocking their dorm rooms with high-tech equipment. Dance faculty member Susan Douglas Roberts and alumna Kerry Kreimen, who are co-directors of Contemporary Dance/Fort Worth, were featured in a photo and feature story on their dance company that ran on the cover of the A&E section. The "home team" Horned Frogs also were mentioned in Galyn Wilkins' column in the sports section.

A story in the Star-Telegram's July 20 sports section noted that nearly 150 people attended the Committee of 100's third meeting on July 19: the largest turnout to date for the athletic promotions/community relations group. Baseball great Nolan Ryan, who also serves as a restricted earnings coach for TCU's baseball program, shared anecdotes with the business and community leaders who attended the luncheon event, which was held in the Student Center ballroom. Channel 8 also covered the event.

The July 20 Star-Telegram also announced that TCU swim coach Richard Sybesma had signed 13 recruits for the men's and women's teams. Chris Kern, a University of Texas transfer, was singled out for recognition. Chris finished fourth in the 500-yard and mile freestyle events at the Southwest Conference Men's Swimming and Diving Championships, the article noted.
