## STUDENT ADVISING EXPECTED TO BE EASIER WITH NEW SYSTEM

Faculty advisors will say goodbye to tedious paper-based evaluations of degree plans in the near future after the registrar's offices trains a computer to take over many of the clerical headaches of degree audits. By spring 1995, checking a student's progress toward graduation will be just a few keystrokes away with a new computerized degree audit system, according to Registrar Pat Miller.

"The most important advantage of the new system is that it allows students to have an exact map of where they're going," Pat said. A second, and almost equally important benefit is that it will relieve faculty advisors and students of the onerous task of writing down courses and determining where they fit into a degree plan, leaving more time to discuss career goals.

Advisors will be able to access any records of their assigned students via TCU's computer network. For security purposes faculty members will never have direct access to a student's permanent records. Rather, advisors will access a "snapshot" of the student's progress from the personal computer-based system, Academic Audit, produced by Ironsoft Limited of Pittsburgh, Penn. The system will compare completed course work with requirements for a given degree plan.

Richard Yantis, manager of student systems for TCU's Information Services, said the PC-based Academic Audit was chosen over a mainframe system because it was easier to use, offered greater security and could be brought online in a matter of a few months. The system will be available to both MS-DOS and Macintosh users, Richard noted.

Careful attention is being given to repeatedly verifying that the system's information is correct using a multi-check process. This task is complicated by the need to review TCU student catalogs used since 1989. With students having the option to take up to six years to graduate, degree plans and course requirement data from multiple catalogs must be incorporated into the system.

"We are going to working with deans' offices and faculty advisors who will oversee our work for accuracy," said Nancy Ellithorpe, manager of academic progress services in the registrar's office. "And there will be a lot of testing and reviewing and hashing things out to make sure the product is really accurate," she added.

The system will be available on an incremental test basis between now and the beginning of spring 1995 registration. It will come online first in the Neeley School, followed by the school of education, Harris College of Nursing and AddRan College of Arts and Sciences. Deans of individual schools and colleges will decide when faculty advisors may begin using the system for actual student advising.

Pat predicted the computerized degree audit will have a major impact on faculty-student relations and will lead to increased student retention. "If students can see where they're going, they're more likely to stay at TCU and try to get there," he said. Students will be able to personally access their degree plan sometime after the system comes online, but he stressed that the system would not replace student advising.

## WHY GIVE TO THE UNITED WAY?

TCU's United Way campaign drew to an official close last week. Any pledge cards still out should be returned as soon as possible, urged Larry Lauer, campus campaign chair.

Larry said he personally came to strongly support the United Way when he found agencies funded by the organization helping his family. He noted that over a period of several years he used the services of the American Cancer Society, Meals on Wheels, Visiting Nurses and an agency that served the hearing impaired.

"Since then I've come to think of giving to United Way as investing in a family insurance policy. I could have given directly to the agencies. That's true. But I had no way of knowing what I would use. By contributing to United Way, I was contributing to all those organizations," he said.

Last week, three weeks into the Tarrant County campaign, officials reported that \$7.11 million, about one-third of the \$21.6 million goal, had been raised. The area campaign ends Nov. 4.

## UNIVERSITY RETREAT GOES 'INTO THE STREETS'

There is still time for students, faculty and staff to register and volunteer for this weekend's University Retreat, which will be combined with the "Into the Streets" program aimed at raising awareness of community service. "Into the Streets" is sponsored by University Ministries and the Alcohol and Drug Education program.

The weekend's events will be coordinated with Diamond Hill area fourth-11th grade students. Friday evening former Speaker of the House Jim Wright will address the group about community problems and ways to solve them. On Saturday the students will be paired with college students to do community service projects for agencies that serve Diamond Hill. Projects range from clerical activities to painting and yard work for the agencies including the Wesley Community Center, West Side Multipurpose Center, Mental Health and Mental Retardation, Diamond Hill Youth Center and others.

After the community service activities, the college students will travel to Lake Bridgeport Camp where they will share their day's experiences and talk about the role of volunteer service in campus organization and its ties to larger communities. A \$25 registration fee for the University Retreat is payable in the House of Representatives Office in the Student Center Annex.

## STUDY SKILLS WORKSHOPS OFFERED

A series of eight workshops is being offered this fall for students to sharpen their study, note and test taking skills and time management abilities. Workshops are held in Rickel 106 unless another location is specified.

Appointments for individual help are available and more information on the workshops and more workshop information can be found by calling Robert Crawley of academic services at Ext. 6568. Topics, dates and times include:

Study Skills	Oct. 5	7 p.m.	Reading Textbooks	Nov. 8	9 p.m.
Time Management	Oct. 10	9 p.m.	Time Management	Nov. 16	9 p.m.
Note Taking	Oct. 18	9 p.m.	Study Skills	Nov. 29	7 p.m.
Test Taking	Oct. 26	7 p.m.	Test Taking	Dec. 5	7 p.m.

## HORIZON AWARDS TO HONOR PATRONS

The College of Fine Arts and Communication will honor generous supporters Wilma (Miller) and Clarence B. Smith during the second annual Horizon Awards presentation luncheon Thursday at noon in the Student Center ballroom. Chancellor Bill Tucker will greet luncheon guests, and Dean Emeritus George Tade will deliver the invocation.

The Horizon Awards were created by the college to recognize the outstanding contributions of community leaders and college alumni to fine arts and communication at TCU as well as in Fort Worth and the Metroplex. Individuals are selected based on distinctive achievement, service, leadership and contributions to academe and the community.

"The Smiths have been longtime supporters of the College of Fine Arts and Communication and strong supporters of TCU and the community in the communications area," said Dean Garwell. "They are mild-mannered people who are working toward the future and always thinking ahead."

Thousands of children and adults afflicted with communication and hearing disorders have been helped through the research, assessment and treatment offered at TCU's Miller Speech and Hearing Clinic. A gift of Wilma ('44) and Clarence ('47) Smith made possible the clinic, which was named in honor of Wilma's parents, Maude Young Miller and W.C. "Jack" Miller. Other contributions from the Smiths include those that underwrote the refurbishing of the Robert Carr Chapel organ as well as significant grants establishing four scholarships.

Nominations for the Horizon Awards were solicited from all departments by the college's Administrative Council, which comprises the dean, his assistant Audrey Campau and eight department chairs. The council established a list of possible recipients, and final selections were made by the dean and Vice Chancellor for University Advancement Bronson Davis.

Last year Constance and Jesse Upchurch were honored during the first presentation of the Horizon Awards. The Upchurches were instrumental in establishing of the music department's Constance J. Upchurch Electro-Acoustic Music Studio and the Gwendolyn P. Tandy Memorial Library in the Department of Radio-Television-Film.

## MEDIA PROS TO MEET WITH COLLEGE JOURNALISTS

TCU's Department of Journalism and the Dallas-Fort Worth Network of Hispanic Communicators will co-sponsor a seminar for job hunting college journalists Oct. 15. Mercedes Olivera (journalism) said the seminar, "Preparing a Diverse Media Workplace" features 10 workshops and a plenary session geared toward helping prepare college students for media jobs.

Dozens of media professionals from throughout North Texas will share their experience and advice during a wide range of sessions on print and broadcast media. All sessions will be held in the Brown-Lupton Student Center. The deadline to register is October 10. For more details call the journalism department at Ext. 7425.

## FACULTY/STAFF GOLF EVENT SET FOR OCT. 14

Lost Creek Golf Club will be the site of the 8th Annual Fall Break Golf Classic Oct. 14 for TCU faculty, staff and their guests. Sponsored by TCU's recreational sports department, the golf tourney will be in a four-person scramble format with tee off at 11 a.m. The \$40 entry fee, due by Friday, covers green fee, cart rental, prizes, snacks and refreshments. Contact the recreational sports office at Ext. 7945 regarding reservations.

## **'TCU DOWNTOWN' FEATURES JAZZ ENSEMBLE**

The first of several "TCU Downtown" programs will kick off Friday in Burnett Park, located at West 7th and Lamar Streets. The TCU Jazz Ensemble, under the direction of Curt Wilson, will present a one-hour concert from noon to 1 p.m.

"Frog Lips", an original composition by Curt and "Zip-a-Dee-Doo-Dah," also arranged by Curt, and Tommy Dorsey's Opus #1, will highlight the 20-member ensemble's Big Band sound. Music education major, Rob Laney will be featured on vocals.

"This fall event is brand new, and we're hoping the downtown community will come, relax and enjoy their lunch with us," said program coordinator Sally Armstrong. "Everyone is welcome to attend," she added. Future "TCU Downtown" events will be announced throughout October.

## **TCU BOARD MEMBER JOHNSON TO BE HONORED**

Clark Johnson, chairman and chief executive officer of Pier 1 Imports, has been selected as the 1994 Fort Worth Executive of the Year. Johnson, a member of the TCU board of trustees since 1988, will be inducted into the Fort Worth Business Hall of Fame during a reception and dinner tomorrow (Wednesday) at the Fort Worth Club.

Sponsored by Texas Wesleyan University and the Fort Worth Chamber of Commerce, the award recognizes the partnership of private enterprise and higher education. This is the 25th year that the award has been presented.

## **ENGINEERING HOSTS OPTICAL COMPUTING EXPERT**

Dr. Alexander A. Sawchuk of the University of Southern California will discuss "Smart Pixel Devices and Applications in Optical Computing and Interconnections" Thursday at 5 p.m. during a presentation hosted by the Society of Engineering Students. Sponsored by the TCU Research Fund, the talk will be held in the Bass Living Room (Bass 107).

Professor in the Department of Electrical Engineering and associate director of the Signal and Image Processing Institute at USC, Sawchuk will describe the physical characteristics of various smart pixel devices that are currently available or under development.

Sawchuk is a Fellow of the Optical Society of America, the Institute of Electrical and Electronics Engineers, and the International Society for Optical Engineering. His research interests include optical computing, optical interconnections and networks, and digital image processing. He is the author of more than 120 technical publications in these fields. Last year he received the Lockheed Senior Research Award from the USC School of Engineering.

## **MATHEMATICS LECTURE IS TODAY**

"Operator Theory and Wavelets" is the title of today's TCU Research Fund Lectureship hosted by the mathematics department. Dr. Dave Larson from Texas A&M University will be the featured speaker for the event, which begins at 3:30 p.m. in Winton-Scott Hall, Room 145.

Since 1990, the math department's lecture series has attracted more than 40 outstanding research mathematicians from some of the best universities in the world, according to department chair Bob Doran. The department has scheduled eight lectures this year. Additional information on the lectures is available from the department by calling Ext. 7335.

## OSP AND MAYOR GRANGER 'DO LUNCH'

Office Staff Personnel members enjoyed a brown bag lunch with Fort Worth Mayor Kay Granger last Thursday in the Student Center Ballroom. Granger told the audience of 110 OSP members to be risk takers, list makers and to "surround yourself with eagles."

Her noon-time chat began by sharing a little of her early background and her plans to be a wife, a mother and teacher. "My plans didn't work out," she said. "I decided to leave teaching in '78. There was no turning back," she added jokingly, "I cashed in my retirement!"

With three small children and a mother who also shared her home, Granger said she quickly learned life lessons. "Most successful people are ordinary. You must set yourself a direction and work like the devil," she commented.

"A favorite lesson," Mayor Granger added, "was in the form of a framed poster of an American Eagle. The caption read, 'You can't soar with eagles when you work with turkeys.' Stand tall and surround yourself with eagles," she said in parting.

## M.B.A. PROGRAM POSTS ENROLLMENT GAINS

The Neeley School once again has posted gains in the full- and part-time entering graduate classes. This fall's full-time class of 73 students was more than seven percent larger than the fall 1993 class. The part-time program grew from 37 students in 1993 to 45 this fall.

In recent years the Neeley School M.B.A. program has maintained its enrollment or posted modest gains at a time when national interest in business study has been on the decline.

Charles Hickman, director of special projects and services for the American Assembly of Collegiate Schools of Business, said that the test volume for the Graduate Management Admissions Test in 1991-93 was down 17 percent over the previous period. In 1993-94 the volume was down again by three percent, he said. While no national record of students beginning graduate business programs is available, the GMAT is generally accepted as an indication of interest in the M.B.A. degree.

Hickman noted that the number of M.B.A. applications in recent months has been up, particularly at high-end and intermediate schools. "Students are becoming more value conscious and buying brand name more often," Hickman said. He added that the M.B.A. degree is being viewed more as a commodity by students and employers, and both of these constituents are doing more comparison shopping.

Peggy Conway, M.B.A. admissions director in the Neeley School, said that statistics alone fail to capture the true nature of the entering classes. She explained that several of the students have owned their own businesses, speak several languages, or have lived and/or studied abroad. The classes include many scholars honored through programs such as National Merit Scholarships, Phi Beta Kappa and other academic honorary societies. Some are pilots, competitive cyclists or emergency volunteers, and a few new students are veterans of Operation Desert Storm.

## WORKSHOPS TARGET ADULT STUDENTS

Adult students needing to polish their prose can attend a writing workshop sponsored by TCU's Office of Adult Services. "Finishing Your Writing Assignments" is the topic of Saturday's presentation, which will be held in Sadler Hall Room 212 from 10 a.m. to noon. Although there is no charge for the workshop, reservations are recommended. More information is available from the Adult Services Office at Ext. 7130.

## KIDS EXPERIENCE VIRTUAL REALITY

A group of fourth grade students from Fort Worth's Hubbard Heights Elementary step into virtual reality early next week thanks to a National Science Foundation grant awarded to TCU's School of Education.

The bilingual students from the year-round school will be among the first visitors to attend *LIQUID VISION: Lasers, Holograms, and Virtual Reality*™ Oct. 10 at the Fort Worth Museum of Science and History. Students can step into an eight-foot tall video game, produce and star in their own music videos, or "morph" their faces to look like wolves.

TCU's NSF grant director Laura Daly says the virtual reality experience is part of a two-week program at the museum. Hubbard Heights students will also study cowboys and vaqueros, experience *DinoDig*®, the museum's outdoor fossil discovery area, and participate in other activities.

The Home Depot is providing materials and staff for students to study raceways and mazes as they explore speed, gravity and balance. Daly says the research project is designed to allow teachers to see, first-hand, how informal educational settings engage children.

This is the second year of collaboration between TCU, the Fort Worth Museum of Science and History and the Fort Worth Independent School District as part of the NSF grant that runs through November 1996.

## LOCKHEED'S ENGLAND NAMED TO NEELEY BOARD

Gordon R. England, president of the Lockheed Fort Worth Company, has been named to the Neeley School's International Board of Visitors.

England (M.B.A. '75) was corporate executive vice president of General Dynamics Corporation and president of aircraft systems for GD prior to the sale of the Fort Worth Division to Lockheed. Earlier he served as corporate vice president and general manager of General Dynamics' Land Systems Division. He spent the previous five years as vice president of research and engineering at the division.

At the Fort Worth Company, England is responsible for domestic and international aircraft programs including the F-16, the F-22, the joint FS-X development program with Japan, the joint IDF development program with Taiwan and numerous other domestic and international programs.

The 28-member Neeley School International Board of Visitors was organized in late 1988 in an effort to keep the lines of communication open between the business school and leaders in the field. The board reviews and advances recommendations on Neeley School programs and goals. Members include local, national and international leaders recognized for their exceptional stature in a field relevant to the mission of the Neeley School.

## TCU IN THE NEWS

"TCU really is Fort Worth's 'home team,'" concluded a Sept. 23 *Fort Worth Star-Telegram* editorial preceding the TCU-Texas game.

The third annual **Moore Philosophy Lectures** featuring Dr. John Searle of the University of California at Berkeley was the subject of the Sept. 28 *Fort Worth Star-Telegram* story, "Philosopher's lectures to focus on computers." The lecture series, hosted by TCU's philosophy department, is made possible by a gift from the Ronald E. and Alexandra Moore Foundation.

**TCU IN THE NEWS (cont.)**

KTCU's "Classical Excursions" program which begins at 2 p.m. on Friday will be a rebroadcast of Rosemary Solomon's 1993 interview with **Judith Solomon** (music) on the topic "The Piano Accompanist: Servant or Partner?"

Eleven Bobby Bragen Youth Foundation Scholarship winners were pictured with **Dr. Bobby Brown** in the Sept. 23 issue of the *Fort Worth Star-Telegram*. Dr. Brown and the students were visiting TCU to tape a video for the foundation.

"You can't control the outcome of the game. You can control the atmosphere," **Lois Kolkhorst** (athletics) told the *Dallas Morning News* in the Sept. 29 story, "Promotions a marked sign of the times."

**NOTES ON FOLKS**

**Jack Barrett** (Charles Tandy American Enterprise Center) hosted more than 20 top business and civic leaders last Wednesday during a session of the International Business Breakfast Group. The group, which met in the Neeley School center, was formed in August to advance Fort Worth area trade with Latin America.

**Eric Chapman** ('91) and **Brian Dellen** ('91) recently completed a seven-day nationwide tour with the National Cattlemen's Association Young Cattlemen's Leadership Conference.

**Gail Davis** (nursing) presented a paper, "Clinical Applications of the Chronic Pain Experience Instrument with Fibromyalgia" at the National Conference on Instrumentation in Nursing, Tucson, Ariz. on Sept. 24. The 3-day conference was the 22nd annual nursing research conference cosponsored by the University of Arizona.

**Anantha Babbili** (journalism) was an invited speaker and panelist at the ninth annual Governor's Conference on Crime Victims at the Worthington Hotel Sept. 19-22. He was participating on the critical issues forum, "Media Coverage of Crime and Its Victims," which addressed the issues involved in balancing the victims' right to privacy with first amendment freedoms and the public's right to know. Also on the panel were **Debbie Price**, *Fort Worth Star-Telegram's* executive editor, **Mike Secrest**, KDFW-TV news director and victims' advocates from around the state.

**John Horner** (biology) presented a seminar titled "Host expansion and speciation in phytophagous insects: Behavioral, genetic, and ecological factors" at the University of Minnesota and the Field Biology Workshops of the Minnesota Community Colleges. He also presented a paper at the Cedar Creek Natural History Area in Bethel, Minn. and was a co-author on a paper titled "Herbivore speciation: The role of host-plant traits" presented at the International Compositae Conference at Kew Gardens in London. In August he collaborated with colleagues at Arizona State University on a paper presented at the national meeting of the Ecological Society of America in Knoxville, Tenn.

The Social Work Program learned that graduate **Ralph Belk** ('90) has been awarded one of two prestigious scholarships to the Mandel School of Applied Social Sciences at Case Western Reserve University for graduate study in social work. The other dean's scholarship also was awarded to a TCU graduate, **Kimberly DeFrank Mueller** ('89), a psychology major at TCU.

An article by **Ken Lawrence** (religion) titled "Adrian Martinez: Contemporary Interpreter of Christian Tradition," appeared in the summer issue of *The Arts in Religious and Theological Studies*.

**NOTES ON FOLKS (cont.)**

**James Newcomer's** (vice chancellor emeritus) short story "A Grave at Hamm" appears in the August issue of *Galerie*, a journal of arts and letters published in Luxembourg. Its setting is the Battle of the Bulge, in which he participated. Luxembourg is marking the 50th anniversary of that event.

**Edward S. Kolesar** presented a paper titled, "Sensitive and Selective Toxic Gas Detection Achieved with a Metal-Doped Phthalocyanine Semiconductor and the Interdigitated Gate Electrode Field-Effect Transistor (IGFET)," at the 1994 Sensors Expo Conference in Cleveland, Oh. on Sept. 21. The corresponding manuscript was published in the Sensors Expo Proceedings.

**Arturo Flores** (modern languages and literatures) has had published "Obstinado Viajero: a propósito de Memoria de Omar Lara." *La Palabra y el Hombre* 85 (enero-marzo, 1993) as well as Review of *Conversaciones con Nicanor Parra* by Leonidas Morales. *Chasqui* XXIII: 1 (1994). Also accepted for publication "La memoria como elemento de construcción en el mundo de El Sueño de Santa Maria de las Piedras de Miguel Méndez" by *Cuadernos Americanos*, journal of Universidad Autónoma de México. Also published in the official journal of Universidad de Chile, *Revista Chilena de Literatura RCHL*, "Gustavo Gac o los sueños de un viaje inconcluso."

**FACULTY, STAFF APPOINTMENTS**

**Felix De La Paz** has been hired as a Craft Tech I in the general maintenance division of the physical plant. Felix worked as temporary staff the past two summers and also is self-employed as a remodeler.

The new administrative assistant I in political science is **Elaine Ripley**. Since returning to the work force after several years' absence, Elaine has been employed by the TCU temporary staff service.

**Nancy Skillern** is the new service assistant III in facility services. She has been a physical plant employee since March 1989.

**Tonya Robinson** is the new office assistant in financial aid. Formerly an administrative assistant and admissions counselor at Concordia College in Selma, Ala., Tonya has worked on TCU's temporary staff. Her husband, Tommie, coaches wide receivers for the Horned Frogs.

**Sherry Fowler** has been hired as a postal assistant II in the TCU post office. She was employed as an office manager at Nations Bank and at Express Dent Service. Sherry also worked on temporary staff at TCU.

**Joel McMullen** has accepted a temporary appointment as admissions counselor for the 1994-95 school year. Joael graduated from TCU in 1993 with a B.S. in communications.

**OFFICIAL ABSENCES:**

Students listed below must make up any class assignments that were missed. It is the responsibility of the student to arrange with his/her professor for the makeup. If you have any questions, call the Campus Life office at Ext. 7926.

Women's tennis team members who missed all classes on Sept 30, to participate in a tournament with SMU, Oklahoma University and Tyler College at Mary Potishman Tennis Center at TCU:

Names Redacted

**JOB OPPORTUNITIES:**

The Human Resources office lists the following vacancies as of Sept. 28. For more information on any of these positions, call Ext. 7095.

Assistant Safety Director	Safety
Research Associate	Chemistry
Dir./Intensive English Program	Intensive English Program
Monographic Cataloger	MCB Library
Communication Consultant (oral)	CPC
Communication Consultant (written)	CPC
(both are on an as-needed basis only)	
Administrative Assistant I	Religion
Administrative Assistant I	Football
Accompanist/Technique Classes	Ballet/Modern Dance
Office Assistant	MPL Tennis Center
Groundskeeper II	Grounds
Craft Tech Supervisor II	Physical Plant
Service Assistant Supervisor	Student Center
Service Assistant II	Facility Services
Service Assistant I (1/2 time)	Facility Services
Service Assistant I	Facility Services

TCU has employment opportunities for persons interested in working athletic events. Work is on an as-needed basis only; salary begins at \$4.86 per hour. No experience necessary. To apply, please complete an application.

**CLASSIFIED:**

Information Redacted

## Calendar of Events

- Oct. 3-28 --"The Artist and the Baseball Card," featuring 151 works of art on display in TCU's Moudy Building exhibit space. Exhibit hours are 1-6 p.m. Mondays, 11 a.m.-4 p.m. Tuesdays-Fridays and 1-4 p.m. Saturdays and Sundays. Free and open to the public. Call Ext. 7643.
- Oct. 4 --Math department research lectureship presents Professor Dave Larson, Texas A&M University. Topic is titled "Operator Theory and Wavelets," 4 p.m., Winton-Scott, Room 145. Refreshments at 3:30 p.m. Free and open to the public.  
--Men's soccer, TCU vs. SMU, 4 p.m., TCU soccer fields.  
--Fort Worth Chamber Orchestra virtuoso series with flutist Paula Robison and conductor John Giordano, 8 p.m. (pre-concert lecture begins at 7 p.m.), Ed Landreth Auditorium. For ticket information, call 926-8831.
- Oct. 4-6 --Hispanic Heritage Month, sculpture exhibition, 2-6 p.m., Brown-Lupton Student Center Lounge. Elizabeth Gonzalez Leal will display her sculptures titled "Like Moon White." Reception for Ms. Leal, 2-6 p.m., Oct. 4. Free and open to the public. For more information call Ext. 7855.
- Oct. 5-9 --TCU Theatre production, "The Mad Woman of Chaillot," 8 p.m., Oct. 5-8 and 2 p.m. Oct. 9, University Theatre, \$5 (\$3 for students). Call Ext. 7626 for more information.
- Oct. 6 --Horizon Awards luncheon, noon, Student Center Ballroom. Reservations required.  
--Reception for "The Artist and the Baseball Card" and lecture by exhibitor/illustrator Murray Tinkelman, 6-8 p.m., Moudy Building exhibit space foyer. Curator and creator of the exhibit, Murray Tinkelman, will give a lecture on the exhibit at 7 p.m. Free and open to the public.
- Oct. 7 --TCU Jazz Ensemble performance, under the direction of Curt Wilson, 12-1 p.m., Burnett Park. Free and open to the public.
- Oct. 9 --Women's soccer, TCU vs. Centenary, 1 p.m., TCU soccer fields.  
--Men's soccer, TCU vs. Centenary, 3 p.m., TCU soccer fields.
- Oct. 10 --TCU Music Series recital by pianist John Owings, 7:30 p.m., Ed Landreth Auditorium. Free and open to the public. Call Ext. 7602 for information.
