FORT WORTH NATIONAL BANK BLDG.

FORT WORTH, TEXAS

October 26, 1934

MEMORANDUM

Mr. Oscar Monnig:

I have been in West Texas and New Mexico and picked up the following information on meteors, which I pass along to you with no guarantee:

Reck
Mr. R. DeChicchis, Petroleum Building, Midland, Texas says that he gave pieces of the ~~Pike Spring~~ (20 miles southeast of Midland) meteor to the geologists in offices of Marland Oil Company and Pure Oil Company, San Angelo, Texas. I suggest that you call D. D. Christner of the Marland and R. A. Lidell with the Pure Oil Company, both here in Fort Worth. I also suggest that you send DeChicchis a copy of your meteor crater map; he said he would like to have a copy.

of other info
Fred Miles, a mechanic with the McNally-Hall Motor Company, Roswell, New Mexico told me that he knew of the location of a meteor in the mountains west or southwest of Roswell, he also stated that he knew of a place in the mountains where he suspected a fall, the trees showing a "path" etc. etc. Miles makes a hobby of roaming around in the mountains collecting rocks and minerals. I told him that I was going to talk to you about him and that he would probably hear from you.

Very truly,

David Donoghue
