

ROBERT F. IMBT
PETROLEUM GEOLOGIST
SAN ANGELO, TEXAS

November 12, 1934.

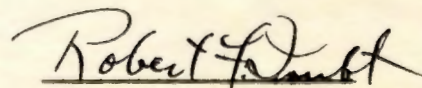

Mr. Oscar E. Monnig,
312 W. Leuda Street,
St. Worth, Texas.

Dear Mr. Monnig :

I have your card of November 5th and assure you that I will be glad to cooperate with you in your study and collection of meteorite fragments.

The West Texas Geological Society now working on a collection of interesting minerals, fossils, cores, etc. for a museum display in the library located in the basement of the Tom Green County court house. We have one fragment from the Odessa crater which we plan to place in our collection. It has occurred to me since you have so generously offered me a copy of your contour map of this crater that it would be an excellent addition to our display. If this plan does not conflict in any way with your wishes, I assure you that we shall be very happy to have a copy of the map mentioned above.

Sincerely yours,

Robert F. Imbt
