

1957, July 31.

Mr. Elmer R. Stinson,  
Route 1,  
Admire, Kansas.

Dear Mr. Stinson:

I will accept the proposition of buying the Aquire, Kansas, meteorite you found of about 69 pounds, to be delivered by you in good condition to Mr. Walter S. Houston of Route 3, Manhattan, Kansas.

I have written him to get in touch with you and tell you the best way to find him. He teaches at the Kansas State College at Manhattan, and if you shouldn't go up there for a month or so, you might find him there. I suggested that he tell you just where the most convenient place would be for you to find him, and that he give you his telephone number so you could phone him before you want on the trip.

He has two checks, one for \$140.00 and one for \$200.00, that he will give you for the meteorite.

Thanks again for your cooperation.

Sincerely,
