Many thanks for your letter of June 1st,
forwarded from Kansas. The new admirer
find of 69 lbs. is in very good condition.
I am not an expert on present values,
but I believe the farmer would take
\$150 or even \$125 for it. I don't know if
anyone would be in a position to exhibit
it except perhaps some Historical Society
in Topeka. My address after Sept. 1
will be Dept. of Geology, Univ. of Mass-

achments, Amberst,
man. sincerely,
