Jan 24 - 53

Mr Oscar E. Monning

Dear Sir: In regard to
the meteorite reported to you
by Mrs Charlie Owens.

I worked on the D ranch
for some time. And it
happened that I found this
meteorite. I guess it was
the one that you heard
about, the same location.

However this one wasnt
so large, a little larger
than a foot ball and
weighed about 45 #.

A very dark rusty color, Cracked,
And looked to be very old
No one that I talked to

know what it was. When
I left the D I hauled that
rock several hundred miles
and finally contacted a Mr
H. H. Minniger of Beaver and
let him have it.

Yours truly
H. J. Woodward
