

Hereford Tex
Nov. 17. 1932

Oscar E. Morning

FT. Worth Tex.

Dear Sir: Was glad to hear from you. I have a little story I want to tell you, I aimed to tell you of it our trip that day but every time I thought of it something came up and I forgot it. I think that I know what went with the meteorite we were chasing. While our neighbor C. B. Williams was running the D- ranch or soon after, while he was running the old Escabada

camp of the XIT ranch
he hired a man from
Ohio with ~~to~~ work for him.
This man stayed with him
but a short time.

I have been told that
this fellow while ^{there} found
a meteorite while riding
the pasture and sold it to
some one for \$80⁰⁰. and left
soon for a ranch over on
the Pecos.

I never thought much about
it at the time but your
story of the 2 meteorite
made me think that it
could be true and that this
man found your stone.
This man was raised in

The cemetery is about
~~one~~ one mile due south of
Tadous

Shinnitt and I am sure that
he knew about the stones
found around Shinnitt for
he knew the Ramer's all
around all his life.

It is pretty certain that he
would know a meteorite if
he ran on to one.

This man's name is
Homer Norwood. I have
known him ever since
he was a kid.

I don't know for sure where
he is but think that he is
in the country around
Santa Rosa New Mexico.
all that I know about
the meteorite found near
the cemetery at Shinnitt

is that one was found near
the cemetery and that it
was like the ones over east.
you might find out from
Raney or some one in
Lincoln

Sorry that I did not
tell you this when you
were here but I just did
not think of it or connect
it with your story.

Will try to get Wood's
address for you. Hope to go
over in that country soon
on a relic hunt.

Would try a letter to him
at Santa Rosa. This may be
just another story. Yours truly
Bob 666
