c/o Mrs. J. W. Greathouse
The Fair Store,
Vernon, Texas.

Then 3 mi N - then 1 W
Then N - cross E-W road

Dear Mrs. Owen:

help N - I sign over get - Wilson Bros

I have never been able to hear from anybody about the possible meteorite of which you told me. Mrs. Charles Donald has moved to Las Vegas, New Mexico and a letter sent there was unanswered. Clay Angelo is with the fire department at Hereford but likewise failed to answer. I also wrote a Mr. Berl Eliston, real estate man at Hereford, but he did not reply. Now, I know by experience that this simply means these folks don't know anything about the rock we are hunting.

Donald was the
owner had one
owned by J
- BR Jennings -

I am asking you to write me further with any suggestions you may have, and especially to answer the questions noted below. I am going to be in Amarillo for a market showing next Sunday and Monday, and will take time to drive out to this place and see what can be learned. If you can get your answer back to me by Friday or Saturday, I'll appreciate it.

Mr Charles Wilson

Yours sincerely,

Oscar Monny

had an Escobedo camp.

1. You said the locality where you recalled this rock was about 25 miles northeast of Hereford. Do you recall what county it was in—Deaf Smith or Randall?—or did you pay any attention to county lines in those days? In Deaf Smith Co.

2. Was the locality north of the railroad? South

3. I don't suppose there a chance you knew or recall anything of the section number where the ranch house on the D was located. No.

4. Any other hints?

If you can locate a place almost due west of Hereford by name of Kelso (14 rooms house), was used as hotel years ago. Seems it was an old town site before Hereford was heard of. Will Valentine owned it when we lived at D & this about 30 mi.

Rock is 5 miles due east of there.

Hope this will help you further in your search.
I am sure that people who saw this rock like
myself gave it no thought & perhaps it is still
there. Hope you find it

Yours Respt.

Miss. Charlie Owen
