

May 30-'40

Dear Mr. Moring,

The meteorite is in my possession. I would like to show my classes in general science this summer when we will study a little fundamentals of astronomy. Will return it to you. Do you think it should be on display in a downtown window? You mentioned it once. Be here all summer. Would like to work with you anywhere. Would like to see your new acquisitions.

Sincerely,
J. L. Carrier
