Dear Mr Oscar Mendig

I have delayed answering  
your letter because I am still  
harvesting oats, delayed due to rain

I have no idea as to what the  
meteorite is worth in dollars is  
if it is worth a lot of them  
I will sell it. if not I will  
keep it for a while at least  
until I tire of it. Then I will  
sell it for the most I have been  
offered for it.

I would be glad to let you have  
it for a given length of time.  
After making the trouble with  
it at the University and getting  
it sliced I promised my self you  
to let it go any more.

So in view of that I believe  
I would want to practically sell  
it to you for a given time. If  
we lived at the same town it  
would be much more simple  
you figure out a way from  
my side and I will be glad to  
do it.

I am glad to have meet all of you  
and enjoyed it. Truly Yours Dan Long
