

1959, June 15

Mr. Van Long,  
Route 3  
Chickasha, Oklahoma.

Dear Mr. Long:

I'm going up to Tulsa this week-end to make a talk to some amateur astronomers about meteorites.

I'm still very much interested in the one you found. Would it do me any good to come by Chickasha and see you either on the way up or the way back?

I'm sure you're always a busy man. I am going up Friday but really wanted to see some fellows at Ardmore. Sunday I'll be driving back, and could come thru Amber and see you.

Any how, it will be a pleasure to hear from you again.

Sincerely,
