Mr. Oscar Monnig,

Ft Worth, Texas,

Dear Sir:

While I was out dove hunting last Monday afternoon I saw the meteor mentioned in the Star Telegram of to-day.

From where I was (near here) I thought the meteor must have fallen in the direction of Ft. Worth. Ofcourse I could not judge the distance and I only saw it for a fraction of a second.

Hoping that this information will be of some benefit to you, I am,

Yours very truly,

J. P. Rodgers Jr.
