Dear Mr. Monnig:

Thank you for your letter dated January 28, 1982.  
Pardon my delay in answering, but I have just returned  
from a six week field trip in which I have discovered  
two new meteorites.

Unfortunately, I no longer have Belle Plain material  
for distribution. I am enclosing a letter I sent out  
last week describing one of my new finds, the Beaver  
Meteorite. If this material is of interest to you,  
I will be happy to send a specimen for your approval.

Glenn Huss has spoken very highly of you and I look  
forward to meeting you.

Yours sincerely,

Jim Westcott
