1961. Oct. 23.

The Manhattan Junior High School,
Manhattan, Kansas.

Gentlemen:

Can you give me the present address of a former science teacher at your school, a Mr. Phipps who I understand is now teaching near Wichita?

I wanted to write him about a stone meteorite I understood he had. A Mr. Walter Houston, formerly at the University at Manhattan, told me about this object, and Mr. Houston is a long-time friend of mine.

Thanks, indeed.

Yours sincerely,
