City Board of Education,
428 South Broadway,
Wichita, Kansas.

Gentlemen:

I am trying to locate a Mr. Phipps who was formerly a science teacher at the Manhattan Junior High School of Manhattan, Kansas. I have understood he is now perhaps teaching in or near Wichita, but the County School Superintendent says he is not employed by their office, and referred me to you.

If you can furnish me his present address, I will appreciate it. I want to write him about a meteorite I am told he has.

Yours sincerely,

We do not have a Mr. Phipps in our employ who has had teaching experience in Manhattan, Kansas.
