1962, January 23.

Mrs. Manford Roberts,
Green, Kansas.

Dear Mrs. Roberts:

I wrote you in October about a meteorite I understood you had.

I do not seem to have heard from you, and take the liberty of inquiring again.

I am really in the dry goods business here, but collect meteorites as a hobby. I do not profit from them, as I display them free of charge in various places, with some of them at present on exhibit at a University here, and others at a Children 's Museum in FortWorth.

I hope you will let me hear from you about the one you have, and that we can negotiate with you for it.

Yours sincerely,
