Manford

Mrs. ~~Maynard~~ Roberts,
Green,
Kansas.

Dear Mrs. Roberts:

You may recall a Mr. Walter Houston who was formerly at the University at Manhattan, Kansas. He is a very good friend of mine, and told me about a stone meteorite your husband had found.

Mr. Houston is no longer at Manhattan, and has moved to Connecticut. He told me I might write you to see if we could acquire the meteorite.

As you will see from the enclosed circular, I have collected these objects for some years. We would be quite interested in securing the one you presumably still have, if you are willing to offer it for sale.

Will you please write me about it? Mr. Houston told me some about it several years ago, but I have forgotten how big it is or how much it weighs.

Yours sincerely,
