

Dear Oscar:

Found this card cleaning out my desk....thot it ought to be used. Saw the eclipse from Maine and saw Dorrit Hoffleit. I will be able to get to Ottawa for the meteoritical meeting and so may see you there...am speculating on a brief paper. My daughter Ann reports from Kansas that the Mayday stone still exists and is in the possession of the widow of the finder. Widow still lives near Greene Kansas. Am trying to get Ann to go up and buy it (she is on vacation) but its hard to get a gal her age to hunt meteorites.

Have started the foundations of a small observatory here.

best

Walt
