Mr. Joe W. Darst,
P.O. Box 604,
Terrell, Texas.

Dear Joe:

I am going to ask you again for permission to submit your meteor photo to "Sky and Telescope" for publication.

As you will see from the enclosed mimeographed sheet, we have run down one fragment of this meteorite and I hope to write a story for the astronomical magazine mentioned. I very much want your picture to appear with it.

Please consider this, and I hope favorably, and let me hear from you. If you have not sold the picture rights to any one else, I can see no objection to my use of it with your permission.

The magazine "Sky and Telescope" is the leading publication on amateur astronomy in this country. They indicate they would pay perhaps \$10.00 for the use of the picture, but since I already paid you that I ask for permission without further payment. I do not expect to collect anything for my article or the use of the photograph.

Yours sincerely,
