Mr. Oscar Monnig..

Dear Sir:

as you wanted persons to write you who saw the meteor last Saturday night, I saw the meteor, I was standing in my front yard at the end of the walk, it passed right above me it seemed to be about 50 ft in the air, it was low, it looked to be a ball of fire about the size of a washing tub, it exploded or went away not to far from me, it sent out little squares and disappeared just broke up nothing fell.

2

that was the last of it.
if it exploded over the
Sherman area it was
another, for this ended
right here, dont think
it was a meteor. I live
12 miles ^{north} east of the town
of celina Texas,
