

TIOGA Texas

P.O. Box 114

one morning we were  
sitting in the yard facing  
east and north. at once  
there was a blinding light  
blinking all for a few sec  
then an object past over  
a tree in the yard the  
object was going north  
east. and only a few sec  
it began to divide and  
then a roaring sound  
began. and we all  
decided it feel not to  
far from Tioga, I dont  
no. But I believe it will  
be found between  
Tioga & Sherman. a  
part of it if not all off  
it
