

Route 1 Box 103
Howe,
Texas

Mr. Oscar Monnig,
29 Chelsea Drive,
Fort Worth,
Texas

May I introduce myself as Mrs. Benjamin F. Lee, Howe, Texas, as I have a tale to write you about.

After reading an article in the Sherman Democrat of September 12th. I thought perhaps that what I saw and the piece of something that I found may be of interest to you.

Our home is located on a farm about five miles south of Sherman and about two miles east of Hwy. 75.

Now for my story:

While watching the Miss America program on T. V. about ten-fifteen, Saturday evening I witnessed this terrifying big Blue Ball and white, white light.

I ran to the front door to see what had happened but everything was quiet as the whole thing lasted not more than a few seconds but longer than a flash of lightning. It seemed to be only about ten feet from the ground and where it disappeared to I cannot say.

Yesterday I found this piece of a rock formation in the yard and thought maybe the whole thing may be beneficial to you.

As we are located on rural road and there are no phones you may contact me by letter at the above address for additional information, if you care to.

Hope I may be of some help to you, I am

Sincerely,

Mrs. B. F. Lee
