Oscar E. Monnig
29 Chelsea Drive
Fort Worth 15, Texas

Dear Mr. Monnig:

Thank you for the colored slides of the meteorite. I am sorry that I waited so long to answer your letter but semester examinations have kept me rather busy. I wonder if you have made any further search for fragments. We look here every change we get but we have not found anything since I talked to you last. I have about decided that extreme weather conditions in this area and winter plowing is going to make it difficult to find anything else. In your last letter you suggested that you would like to buy the four ounce specimen that I have and after careful consideration I believe that you could put it someplace where it could do some good. If you will make me a reasonable offer and send me mailing instructions I will be glad to let you have it. I will not be unreasonable as to price but I will expect an offer equal to that which you would make to any other collector.

At any rate, when the weather warms up we shall look some more and would be happy to see you the next time you hunt in this area.

Yours very truly,

Walter White

WW:JCR

As you can see I wrote this letter and forgot to mail it.
