

Dallas, Texas.

Nov. 8 - 1961 -

Mr. Oscar Wronning,
Ft. Worth Texas,

Dear Sir:-

I see your add in The Denison Herald about the Meteor which passed over Carpenters Bluff. I live down there near the Bluff - first house this side on north side of the road - I was standing in my door looking across the sky at the stars when all at once a large bright object shot by & seemed to just pass over the tree tops & stop in Oklahoma - seemed to pass over just a short distance across the railroad. This is all I know about it. I hope it will be of some help. Sincerely

Mrs. R. L. Radford,
8635 San Leandro Dr.
Dallas - 18 - Texas.
