

P.O. Box 408
Denison Tex.
Nov-17, 1961

Dear Mr. Monning!

Sorry I did not answer your letter sooner. I have been working on construction ~~into~~ work out of Denison. Now that we are finished for the winter I can help you look for Meteors.

Thank you for the article on Meteors.

You know more about the Sept-9th fire ball than what I could tell you.

I will be happy to show you the point of observation.

I live alone at 1331 So Travis St. ^{Denison} I have no phone but the negro man who looks after my yard and place while I am away working has a phone his phone is HO-5-4759; name is Ed Butler. He lives about

one black North & West of
my place. He is a retired
~~and~~ railroad worker and will
be glad to tell you where I
live and if I am in town.
So if you call him he will
get in touch with me. I
told him you might call me.

I did farm several years ago
in the Oklahoma area across the
Red river from Bell Texas. I
know some people who would help
you also one Fox Hunter who owns
2 or 3 hundred acres also one neighbor
owns 2000 acres. These men ~~who~~ would
be glad to look for Meteorites also
the Durant Okla newspaper covers
that section of Oklahoma. I am

Respl.

B. E. Johnson

P.S. If I can help you don't fail to
call on me. No charge ^{for hunting} I used to com
hunt so. Hunting is a hobby altho
meteorites would be a new thing to
~~hunt~~ look for.
