Mr. C. A. Federer,
Sky and Telescope,
49 Bay State Road,
Cambridge 38, Mass.

Dear Mr. Federer:

Mr. Joe W. Darst of Terrell did kindly give me permission some weeks back to use his picture in an article for you, and I am sending him a copy of this letter so he will know what I am doing.

I have been delayed in preparing an article for you because I have spent every week end up near Bells working on the recovery of meteorites from the fireball of September 9th.

Please don't use the picture until I get around to you with an article. It is a very interesting case. One small meteorite struck a house. I'll try to let you hear from me very soon.

I have a glossy print I can submit to you, but it wouldn't hurt if Mr. Darst sent you another one. Please, however, hold up the use of it until I can give you the details and an article.

Sincerely,
