Mr. Oscar E. Monnig
29 Chelsea Drive
Ft. Worth 15, Texas

Dear Mr. Monnig:

I have received your card and was glad to hear that you have recovered another piece of the meteorite. I was in Ft. Worth over the weekend, so I guess we just missed each other all the way around.

I will be in the studio all day Saturday and will be at home Sunday morning. The 4 oz. specimen which I found meets your description perfectly, and I am anxious for you to examine it. If you could bring me a small amount of dimethylgloxime, I will appreciate it, as I am out and unable to make the nickel tests.

Yours truly,

Walter White
