CORPUS CHRISTI AREA

October 16, 1964

WILSON TOWER

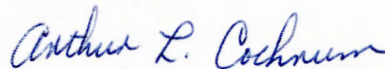

Mr. Oscar E. Monnig  
29 Chelsea Drive  
Fort Worth, Texas

Dear Mr. Monnig:

On my return to the office after a week's absence, I found your letter of October 5, 1964, concerning the sharp geologic feature near Bells in Grayson County, Texas. If my memory serves me correctly, this feature is two or three miles south of Bells near the Grayson-Fannin county line. I know you will need a more definite location than this; therefore, I have phoned our Tyler office where the report on this area is on file. They will mark the anomalous area on a county highway map and send it to me in the near future.

It is a pleasure to be of some service to you in connection with your meteorite studies. I believe you will find the Bells feature interesting, and I hope I can get the necessary information to you promptly.

Yours truly,

Arthur L. Cochrum
