OSCAR E. MONNIG

Mr Joe Rylant Route 8  
Birmingham Ala  
*rted unclaimed not for rural route 8*

1939, Sep. 16.

Dear Mr. Rylant:

I have met Mr. Dossey of Blanket, Texas, a couple of times, in connection with searches I make for meteorites. In talking to me about the stones which fell near there in 1909, he informed me that he gave you a small piece of the specimen he had.

If you can possibly locate this piece, I would like very much to obtain it from you, and will pay you for it if you so desire.

I earnestly ask that you let me hear from you, and, if possible, submit the sample in the enclosed sack. It is understood that I will either pay you an agreed price for it or return it within 10 days.

Yours most sincerely,

*Oscar E Monnig*

P. S. If you send the piece, please wrap it sufficiently to protect it against breakage in transit.
