Mr. O. E. Monnig,
Monnig Dry Goods Company,
Box 2200
Fort Worth, Texas

Dear Mr. Monnig:

Your letter just received and I have written Mr. Rains, Superintendent of Schools in Marshall County, to find out whether the school records would be in Boaz, Guntersville or Montgomery. If you care to come to Birmingham, it will certainly be a pleasure to see you. I have no business commitments now and would be glad to be with you a day or week if necessary. My only activity is that I must attend a wedding in Charleston on June 3, which will take out about a week all told.

Most county schools close late this month or early next, so if you plan to come I would certainly do so before the end of May as there will probably be considerable confusion if we hit the commencement period.

Mrs. Chitwood seemed very doubtful about being able to get any information this way, but of course she does not have the enthusiasm that you and I have.

Sylacauga is only 50 miles south of here; in fact Birmingham is much closer to all the points in question than Atlanta. I have not yet heard from the party in Sylacauga whom I requested to find out about the Meteorite there.

I am somewhat intrigued with your statement that the Boaz Meteorite may be Pallasite. However, as I said before, if you prefer not to cut it, it's all right with me and I am sure I can make it all right with Mrs. Chitwood.

I hope you can come to Birmingham and visit me. Bring Mrs. Monnig along as we have no grandchildren or other family with us at this time.

Sincerely,

C. C. Pinckney

CCP/mr

Though they use the word "museum", I felt the Pacific museum was unreliable.
