## GREENSBURG CHAMBER OF COMMERCE

GREENSBURG, KANSAS 67054

June 20, 1975

Mr. Oscar Monnig  
Fort Worth, Texas

Dear Sir:

I will be glad to give you what information I have about Mr. Stockwell and our meteorite.

As you probably know, Mr. Stockwell died in 1971. No one I find here tried to buy or obtain any of this collection. I was a merchant here at that time, have only managed the Big Well for a year, and the Chamber did nothing. All that is here is the large 1,000 pound Meteorite. At present I am trying to locate a few smaller samples of this for a show case but haven't had any luck.

I have a daughter teaching at Haven and am acquainted in the area but have never heard of there being any meteorite fall there. Now I will inquire about this.

I have been informed by the administrator of Mr. Stockwell's estate that his collection mostly was sold to someone in Denver.

I am afraid this won't be of any help to you but feel free to write anytime.

Yours truly,

*David C. Clark*  
Mgr. Big Well
