

Dear Mr Monnig; Sending film and signed check for rest of booklets, very fine and well worth the price.

Took couple of the boys down Sunday to help dig out the deep one expecting something extra large, was badly disappointed as only weighed 357 lbs. Guess I should be satisfied with size.

Nov 2 1947

Drove 200 miles today to see couple supposed to be pulled in fence row. Could not even find the mans place.

Have two of the stones on display, takes one persons time explaining to customers. Wile away today a lady said her son had one almost size of these found in Okla and was there in barnyard. Also party in who has one of the small ones from Ness Co fall. Reported they paid \$5.00 oz for them out of Denver. Newspaper was here to shoot the works but coming back for a story. Guess I should have stayed at home.

Write later to answer your letter and ask some more questions.

First frost last night and tonight getting very cold
