INFORMATION ABOUT CLASS ROLLS!

You have undoubtedly noticed that the class rolls that you have thus far received are incomplete. For your information the following explanation is presented.

The Rolls are made when the students have completed all their registration including payment of their bills at the Business Office. Thus the primary reason for late and incomplete rolls is that students are not clearing in the Business Office.

Students that appear in your classes and do not appear on the preliminary rolls should be permitted to remain until the corrected roll appears and if they do not appear on that roll, the student should be asked to either clear his or her record or leave the class.

ATTENTION!

Faculty members will find an enclosed card which is a form requesting the license number of the car you drive to school at any time. Please fill out this form and return it to Don Ver Duin in room 208. The purpose of this form is to register every car that might be parked near the campus so that the Student or Faculty member might be contacted if needed.

The following students missed school on Saturday, Sept. 20th, in order that they might participate with the University Band at the Kansas University-TCU football game in Kansas City.

NOTE: This is an official University function of the band and each student who must miss a class in order to attend this trip must be given a chance to make up the work missed.
