

## PRE-REGISTRATION (Dec. 1-13)

Deans, department heads and all members of the teaching staff will be glad to learn that the Pre-Registration program is going forward with reasonable success thus far. Keep the Pre-Registration opportunities before the members of your classes that we may get as much of this out of the way as soon as possible. Your cooperation is greatly appreciated.

Your attention is called to the following:

1. Problems

A large number of students who did not request petition sheets (degree plans) when called for earlier in the fall are flooding the Registrar's Office with requests now. More work under pressure.

Already some are coming back asking to change their programs. (Can you top that?) We can make no changes until February 2.

Some have filled in the names of teachers and other data not wanted in this pre-registration. Only in the Graduate School and among Graduate students of Brite College is this permissible.

We have found errors in Student Record Books and Petition Sheets which we are correcting as we proceed with the pre-registration. Thanks for your help!

Some members of our faculty and some students are not following the Instruction Sheet.

Some seniors, even, are just now requesting Petition Sheets. We have registered them without classes during the past year has led to omissions and errors.

Several students whose names were not turned in for completion of their work in January are now requesting to be included on that list. The tentative list was published over a month ago after frequent calls for these names. We are doing the best we can to meet these current demands. Already the list of candidates for completion of degree requirements by January has run up to nearly 70.

2. Plans

Remember the Pre-Registration period continues until noon December 13. Then we must not receive any more. This is a final word on this point.
