

3/2/66

Dear Oscar

You will be receiving a letter from me about the Oklahoma iron within a week. and we have just obtained the main mass back, and it is now being prepared for return. It should leave the Museum this week of early next.

You know darn well I would like to have a big piece of this and brother I certainly need a slice for our new display. You surely are not going to say no to that.

Happy meteorite hunting and good luck in Oklo.

Cordially yours

*Ed.*
