Mr. Oscar E. Monnig  
29 Chelsea Drive  
Fort Worth, Texas 76115

Dear Mr. Monnig:

I have your letter of November 10 before me and I must apologize for such a long delay in answering.

We definitely intend to publish the material we have on the Tishomingo meteorite which will include photographs and some metallurgical interpretations of the structure. We are now preparing the draft but I do not know yet where or when within the next 6 months the material will be published. I will inform you of this information as soon as it is obtained.

Are you having any success obtaining the other masses?

Very truly yours,

R. D. Buchheit  
Optical and Electron Microscopy  
Division
