

1967, Sep. 21

Mr. Glen Orr,
Route 2,
Tishomingo, Oklahoma.

Dear Glen:

I am still thoroughly interested in the meteorites and anxious to obtain them. I just haven't been up there because there was no use in bothering you and Mr. Whiteley unduly.

At the first decent break in the weather when I get a chance, I am going to bring back the piece you let me take to Washington last November.

I have also written Mr. Whiteley urging him to let me have the specimens. I feel sure I can make satisfactory arrangements with you and your father.

You will be interested to know that a 17½ pound old stone meteorite was found not too long ago near Springer, Oklahoma. I was there and saw it in a geologist's office about two weeks ago, but didn't have the time to come on over and see you.

I hope everything goes well in your family, and will see you shortly, I hope within the next two weeks.

Sincerely,
