

1967, Oct. 5

Mr. Bobby Heffington,
400 East 18th St.
Tishomingo, Oklahoma.

Dear Bobby:

The only free information I have about meteorites is a circular like the enclosed, and this may be what you had seen that Ricky Orr had.

If you will read this carefully it is really full of facts about meteorites.

They are generally found quite accidentally and singly. I never recommend any one hunting for them as they are too hard to find. But just keep it in the back of your mind and some day you might happen to see one.

There are very good books about meteorites and maybe your local library has some. Several of them are by a man named Nininger.

Yours sincerely,
