Mr. Hal Stamps
Tishomingo, Okla.

Dear Mr. Stamps:

I told Lane to go ahead and ship the material to you because it is quite indefinite as to just when I can come up there.

I am negotiating with Mr. White a bit, confidentially, and may go to see him but I doubt whether it would be before this weekend or next week at the soonest and I might not go up there at all.

My general idea was that if I did go up to see Mr. White it would be a nice plan to work in a talk at the school on meteorites there at Tishomingo on that same day. You might let me know if the school Superintendent or Principle is willing to let me address any of the students and if so on what day this would be most convenient for him. I do not want to try to dictate my own terms but if at all possible it would be better if I had some choices so that I could decide at the last minute and come up there some day when the weather looks nice instead of having to battle the rain or cold weather.

My Whiteley and Mr. Orr have both done about all I can ask them for at present and I am not going to press them any further right now. I have arranged to have one of the small pieces cut, polished and edged and will return it to Glen Orr as soon as I get it back. I am sure it will interest him a great deal when he sees what this looks like on the inside after a piece has been properly processed.

Yours sincerely,

MONNIG DRY GOODS COMPANY
