Mr. Oscar E. Monnig
29 Chelsea Drive
Fort Worth, Texas 76115

Dear Oscar:

We are accessioning 313.1 grams of the Tishomingo, Oklahoma, iron as a gift from you. This sample has been studied many times and we hope to present papers on it at the November meetings.

Thus far, no one from Oklahoma has called me with anything in relation to your find, so I hope by now you have acquired the sample. The point of discovery should be part of the published record. I hope you can get the legal problems taken care of, and then you will be able to give me the location of this find.

With best wishes to you and Mrs. Monnig, I remain.

Cordially yours,

E. P. Henderson
Research Associate
Division of Meteorites

P.S. Enclosed you will find your two pictures of the Tishomingo.
