Wishomingo, 0klahoma. 73460 Dear Mien:

I was glad to have all of you dow here for a visits and hope you enjoyed erery bit of it as much as I did.

I Will restate my ofer of pying an additional $\$ 2,000.00$ for the meteorites, which woild make a total of中2,500.00 to you (besides the $\$ 600$ I patd Mr. Whiteley). This would make then cost ne something over $\$ 5.00$ a pound, and I really do feel it is g quite fap price.

Actually ? have novr welghed them. I was all set to take some platorm scales oyer to the Huseum Saturday mornings but bad to stay here too lons th thy salesmen who were 1u. Howevar, I an not conditioning angting on the exact wat ght.

I would like for the to include about hall of cach of the smaller pleces. I have half of the smallest one. The other one is stil1 in ashfogton, and they are dyins to cut a 11 ttle more off one piece which I uld like to bave your consent to their dolnge they want to get fist below a suspicious spot that is a break in the structure; they think a nodule of iron sulohide is there (not thancommon thine in iron geteorites). My thought is to get then sotetums approximately half of is to you eventually, but I would share the other half with themo

If this appeals to you, let me knos how you want payment. At the moment I can send the ontire \$2,000 (due to some yemrend dividends our store paid), but generally I don't have this much avaslable. If you prefer, I could pay just another \$500 or \$1,000 now and the rest later. But I would be hapy if we colldagree on a final settlement.
