

BULLETIN

Issued by the Division of University Relations

Vol. 65, No. 26, March 14, 1989

BUSINESS IS FOCUS OF TCU/FORT WORTH WEEK

"Celebrating a World of Business" will be the theme for the 19th observance of TCU/Fort Worth Week, planned for March 28-April 1. Opening event of the week will be a "Symposium on International Business," and a highlight of the series of activities will be formal ceremonies dedicating Charles Tandy Hall March 31.

The annual spring meeting of both TCU's 50-member board of trustees and the 13-member national board of visitors of the M.J. Neeley School of Business will be held during the week.

Inaugurated in 1966 to call attention to the partnership of the University and the city that has been its home since 1910, TCU/Fort Worth Week is cosponsored by the Fort Worth Chamber of Commerce and the City of Fort Worth. Coordinator is Associate Vice Chancellor Larry Lauer.

Brief ceremonies in recognition of the week will be a part of the March 28 meeting of the Fort Worth City Council. Taking part will be Chancellor Bill Tucker, noting the importance of the city to the University; Chamber of Commerce president Terry Ryan, calling attention to TCU's importance to the city and corporate world; and Mayor Bob Bolen, responding on behalf of the city.

Corporate Executives to Be Panelists

Corporate executives who currently are conducting business around the globe will be panelists for the symposium that officially opens the week. Focusing on working in a foreign culture, they will be Charles Anderson, vice president and general manager of General Dynamics, Fort Worth division; Clark A. Johnson, chairperson and chief executive officer of Pier 1 Imports Inc.; and John Roach, chairperson of the board, president and chief executive officer of Tandy Corporation. Both Johnson and Roach are TCU trustees.

Moderator will be Dean Kirk Downey of the School of Business.

Cosponsored by the Tarrant Business section of the Fort Worth Star-Telegram, the public program will begin at 7:30 p.m. in the Student Center ballroom. While the program is free, admission will be by tickets available from the University Relations office, Ext. 7808.

Bus service will be provided from the stadium parking lot.

(continued)

TCU/FORT WORTH WEEK (continued)

Columnist/Consultant Will Speak

Speaker for the Tandy American Enterprise Center Forum luncheon March 29 will be John Rutledge, chairperson of the board of Claremont Economics Institute. The California-based forecasting and consulting firm provides services to more than 100 corporations and financial institutions.

"The Re-industrialization of America" will be the topic at the noon event at the Worthington Hotel. Reservations, set at \$20 per person, can be made by calling Ext. 7115.

In a soon-to-be-released book entitled "Rust to Riches," Rutledge predicts the renaissance of American manufacturing as "a driving force behind a decade of prosperity without inflation, creating tremendous opportunities for corporations and investors alike."

Rutledge, member of former President Reagan's 1981 transition team, has served on the economics faculty at Claremont McKenna College and Tulane University. Holder of the Ph.D. degree from the University of Virginia, he was on the staff of the U.S. Treasury Department under William Simon in 1977-81. In addition to his "As I See It" column in The Main Street Journal, he is a frequent contributor to such publications as Fortune, Barron's, Wall Street Journal and New York Times.

Super Collider Will Be Discussed

"The Superconducting Super Collider and the North Texas Economy" will be discussed at a March 29 public presentation sponsored by the Forums Committee. The free program will begin at 7:30 p.m. in the Student Center ballroom.

Dr. Robert K. Tener, executive vice president of the North Texas Commission, will be the speaker. Since early 1988 his major role with the organization that serves a nine-county area in North Texas has been with the Texas program for the Superconducting Super Collider and the emerging Metroplex Research Institute. The \$4.4 billion high-energy physics experimental facility is expected to bring an internationally prestigious scientific community to Texas.

Tener, graduate of the U.S. Military Academy, had a variety of engineering and construction assignments in the Army Corps of Engineers. He has held positions including policy and program direction in the Chief of Engineers' Office in Washington, DC.

A Fellow of the American Society of Civil Engineers, he was president and chief executive officer of the Dallas Arboretum and Botanical Society in 1985-87 and earlier served as project manager of Dallas' Exposition Plaza. He holds master's and doctoral degrees in structural engineering with a nuclear engineering minor from Iowa State University. A registered professional engineer in Texas and other states, he is active in the Texas Society of Professional Engineers and the Society of Military Engineers.

TCU/FORT WORTH WEEK (continued)Executives, Guests to Hear Lazer

Dr. William Lazer, the Eugene and Christine Lynn Eminent Scholar in Business Administration at Florida Atlantic University, will speak March 30 at an executive breakfast. Cosponsored by AT&T, the event will begin at 7:30 a.m. in the Student Center ballroom.

The breakfast series is designed for Fort Worth-area executives, and the March 30 event will be open to all interested persons. Complimentary reservations for the program are available by calling the development office, Ext. 7800, by March 27.

"Marketing in the Year 2000" will be the topic of Lazer's presentation for the Earl E. Dyess Lectureship in Marketing. The annual program is funded by a gift from Jack Blanton Jr., president of Key Oil Company, in honor of his father-in-law for whom it is named.

Lazer, also to meet with TCU students and address the campus chapter of the American Marketing Association, is past president of that professional organization and has served as its vice president for education and for global marketing. He was the third recipient of the AMA's Irwin Distinguished Educator Award. He is a Beta Gamma Sigma Distinguished Scholar, Fellow of the Royal Society of Arts and a National Science Foundation Visiting Scholar.

One of only two honorary advisers to the Japan Marketing Association, Lazer has worked with numerous professional associations and corporations, including College Entrance Examination Board, Savings and Loan Institute, Ford Motor Company, IBM, General Mills, PepsiCo and United States Steel. He was a member of the Presidential Blue Ribbon Committee on Trade Negotiations under two presidents. He was a delegate to the White House Conference on the Industrial World of the 1990s.

Lazer, holder of the Ph.D. from Ohio State University, is author of 11 books and more than 150 articles in professional and business periodicals. Many of his works have been translated into foreign languages for his lecturing at universities throughout the world. He has been on the faculty at the universities of Manitoba, Canada, and Louvain, Belgium, as well as Michigan State University. He was a post-doctoral Ford Foundation Fellow at Harvard University.

Corporate Award Will Be Presented

TCU's second Corporate Partnership Award in recognition of contributions to the advancement of higher education will be presented to the Tandy Corporation during a March 30 dinner. The by-invitation, black-tie event will be held at the Fort Worth Club.

Founded by the late alumnus and trustee Charles D. Tandy, the corporation was chosen as recipient of the award on the basis of its demonstrated commitment in the areas of civic leadership and involvement, volunteer service, financial support and other pursuits inherent in corporate citizenship.

(continued)

TCU/FORT WORTH WEEK (continued)

The award, established in 1988, is designed to give public recognition to corporations that have made significant contributions to the University. Initial recipient was Union Pacific Corporation.

Luncheon, Dedication Set

Donors to Charles Tandy Hall and Dan Rogers Hall will be honored at a March 31 luncheon hosted by Chancellor Bill Tucker. The by-invitation event will be held in the Student Center ballroom.

The public dedication of Tandy Hall will follow, beginning at 2 p.m. in front of the three-story facility that almost doubles space available for the Neeley School of Business. An open house is scheduled for 2:30 to 4 p.m.

Details of the event will be featured in the Feb. 28 issue of the Weekly Bulletin.

'Newcomer's Guide' to Be April 1

A non-credit course entitled "A Newcomer's Guide to Fort Worth" will be offered April 1 by the Office of Extended Education. Designed to introduce newcomers and others to Fort Worth's city government, schools, real estate, art and history, the class will meet in Tandy Hall from 9 a.m. to 4 p.m.

Enrollments are being accepted now, and the \$15 tuition includes lunch and an afternoon tour.

Participating in the program will be City Manager Doug Harman, an assistant superintendent of the Fort Worth public schools, Suzanne Lasko of the Arts Council, Charna Logan of Fort Worth Board of Realtors and Ben Ann Tomakyo of the League of Neighborhoods. Historian-author-alumna Joyce Roach will discuss Fort Worth's history during lunch and serve as tour conductor.

*** **

RELIGION, TV EVANGELISTS IS TOPIC

"The Dollars and Sins of Televangelism" will be the theme for a panel discussion of media coverage of religion and TV evangelists tomorrow (Wednesday). The free, public event will begin at 7 p.m. in Lecture Hall 3 of the Sid Richardson Building.

Panelists will include James Robison of the James Robison Evangelistic Association and Mike Evans, who heads Mike Evans Ministries and is minister for Church on the Move. Joining them for the discussion will be Louis Moore, former religion editor of the Houston Chronicle who currently is a member of the faculty of Collin County Community College, and Tommy Denton, editorial page editor of the Fort Worth Star-Telegram.

Sponsored by the TCU Society of Professional Journalists, the discussion will be moderated by Tommy Thomason of journalism.

DE GROOTE RECITAL IS MARCH 27

Brightening the first day of the post-spring break will be a TCU Music Series piano recital by artist-in-residence Steven De Groote at 8 p.m. March 27 in Ed Landreth Auditorium.

Steven will play two of Bach's preludes and fugues as well as Impromptus Op. 90, written by Franz Schubert in the last year of his life and considered to be among the most poetic and wholly characteristic of his inspirations.

He will be joined after intermission by violinist Robert Davidovici, Fort Worth Symphony concert master, and they will perform Bartok's Sonata No. 2 for Violin and Piano and Tzgané by Ravel, a rhapsody for violin and piano.

*** **

GALLERY TO HOUSE CHINESE SHOW

"Where Is Mao?," installation of an ironic memorial to Mao Tse Tung, will be on view March 28 to April 12 in Brown-Lupton Student Center Gallery. Opening reception with the artist, Hung Liu of Arlington, will be held from 5 to 7 p.m. March 28 at the gallery. Subsequent hours will be 11 a.m. to 4 p.m. weekdays and from 1 to 4 p.m. Saturdays and Sundays.

Hung Liu received her first formal training in her native China during the Mao regime, earning the Bachelor of Fine Arts degree from Beijing Teachers College and a graduate degree in mural painting from the Central Academy of Fine Art in Beijing. She had taught at the academy before coming to the United States in 1984 to study for the Master of Fine Arts degree in visual arts at the University of California-San Diego.

The Mao installation had its first showing at Chula Vista, CA, last fall. Hung Liu also showed two unusual installations in San Francisco in the fall under the auspices of the Capp Street Project there. Those two pieces related to the history of the Chinese living in San Francisco and to her experience as an expatriate who lived through Mao's Cultural Revolution in China.

Her work was chosen for the 1987 TCU Art in the Metroplex juried show and for the Texas Sculpture Symposium in San Antonio that same year. She was artist-in-residence and lecturer for the Dallas Museum of Art in the spring of 1988.

The Chinese-American artist, who was uprooted from her studies in 1968 to work on a remote farm during Mao's Cultural Revolution, has been an adjunct professor at University of Texas at Arlington.

*** **

EMBRYOLOGY & EVOLUTION TOPIC OF MEETING

Members of the Southwestern Developmental Biologists will meet on campus March 23 to discuss the relationship between evolution and embryology, the development of life from the fertilized egg. Organized by Rudy Brun, the meeting will feature presentations by researchers with national reputations. Program information is available by contacting Rudy at Ext. 6173.

LAWRENCE NAMED TO LECTURE POST

Ken Lawrence, religion-studies chairperson, has been named senior lecturer for 1989-90 for the Southwest Commission on Religious Studies.

The commission is made up of Southwest regional organizations of the American Academy of Religion, Society of Biblical Literature, Association for the Scientific Study of Religion and American Schools of Oriental Research. Institutional sponsors are 29 universities and seminaries in Texas, Oklahoma, Missouri and Louisiana.

Ken will lecture at a number of the institutions during the next academic year. He has been president of the Southwest commission as well as the Southwest section of the American Academy of Religion and the Association of Disciples for Theological Discussion.

*** **

SPECIAL HOURS SET FOR SPRING BREAK

Spring break will cause special hours for several campus facilities, while University offices will close March 24 to observe Good Friday. Facility schedules include the following:

Library	March 17: 7:45 a.m.-6 p.m. March 18: 10 a.m.-5 p.m. March 19: Closed March 20-23: 9 a.m.-5 p.m. March 24-26: Closed
Instructional Services	March 20-23: 9 a.m.-5 p.m.
Information Services	March 24: Closed March 25: 9 a.m.-3 p.m. March 26: Closed
Food service	
Student Center	March 17: Close at 6 p.m. March 18-19: Closed March 20-24: 8 a.m.-5 p.m. March 25-26: Closed
Snack bar, Staples	March 17: Close at 2 p.m.; reopen March 27 at 11 a.m.
Worth Hills	March 17: Close at 2 p.m.; reopen March 27 at 7 a.m.
Eden's Greens	March 16: Close at 2 p.m. March 26: Easter brunch 10 a.m.-2 p.m.; deli, salad bar and snacks 2-6 p.m.
Rickel	March 17: Close at 5 p.m. March 18-19: Closed March 20-23: 11:30 a.m.-7:30 p.m. March 24-26: Closed
Pool	March 20-23: 11:30 a.m.-1:30 p.m.; 5-7:15 p.m.

The above hours for the Rickel Building are for recreational use; offices within the building will be open regular hours March 20-23.

NEW MEDIA DEGREE BEGINS IN FALL

A graduate program in media studies to be inaugurated in the fall will emphasize a critical and cultural examination of mass communication. A strong foundation in traditional approaches to mass communication theory and research will be included in the Master of Science in Media Studies degree, jointly sponsored by radio-television-film and journalism departments.

To be unique in North Texas, the program will study the media in both cultural and social contexts and the mass media as a manifestation of culture, according to Anantha Babbili, journalism chairperson who described the new degree as "putting TCU on the cutting edge of media scholarship."

Pioneers in programs of similar orientation are the University of Texas in Austin and the universities of Iowa, Utah and Illinois. Others are found at the University of Southern California, New York University and the University of California at Los Angeles, explained David Barker, assistant professor of radio-TV-film and graduate adviser.

While considered a theory and research preparation toward a doctorate, the master's degree will be broad enough to include students interested in professional and personal development.

The program will draw upon theories from such diverse fields as anthropology, literary criticism, economics, sociology and history. The degree is designed for interests varying from media history, theory and criticism to international communication, advertising and public relations as well as the development and social impact of new communication technologies.

TCU's Gwendolyn P. Tandy Memorial Film Library, containing more than 1,500 films and television programs and housed in the radio-TV-film department, will be used extensively in the new program. Maximum use will be made also of the journalism department's reading room as a resource for scholarly and professional journals as well as domestic and international newspapers. Computer facilities for research also are available.

A unique dimension of the new program is the combination of undergraduate and master's degrees through a 3-2 program. An option not previously in the field of media studies at other institutions, it will allow the participant to earn a bachelor's degree in radio-TV-film or journalism and the Master of Science in Media Studies degree in five years' study.

Teaching and research assistantships, providing tuition or tuition along with a stipend, will be available to academically qualified students. Admission requirements include a bachelor's degree in radio-TV-film, journalism or a liberal arts field with applications to media studies. Since the program is intended primarily for full-time students, the majority of classes will be offered during the day.

SYBESMA, ANDERSON RECEIVE HONORS

TCU's Richard Sybesma and SMU's Greg Rhodenbaugh have been selected as the of Southwest Conference men's swimming Coaches of the Year, while the Frogs' Scott Anderson was named SWC men's diving Coach of the Year.

Selected by coaching peers within the conference, Richard and Scott obviously were tabbed because of the Horned Frogs' surprise showing at the recent SWC Championships in Austin. Frog swimmers and divers established eight school records during the 19-event meet.

In 1981 Richard, named swimming coach in 1979, was SWC Coach of the Year and was selected to coach in the National Sports Festival in Syracuse, NY. In 1984 he attended the U.S. Swimming Coaches' College at the Olympic Training Center in Colorado Springs. As a sport consultant for the U.S. Sports Academy in 1985, he conducted clinics and demonstrations on a world tour. The Texas Tech graduate is active in U.S. Swimming, which is associated with the U.S. Olympic Committee.

A full-time athletic staff member since last fall, Scott has been the Frogs' diving coach for four years. He is a graduate of Indiana State, where he set the school record for the one-meter dive.

*** **

SWIMMERS, DIVERS SET EIGHT RECORDS

TCU's men swimmers and divers established eight new school records while finishing the recent Southwest Conference meet with a team effort that placed them one point out of fourth-place honors. Total points were 399, most ever by a Frog team and 91 points above the previous best of 308 in 1988.

The records and those who set them are 500-yard freestyle, Jeff Moser; 50-yard freestyle, Doug Ellis; 100-yard freestyle, Ellis; 100-yard butterfly, Ellis tying the record; 200-yard butterfly, Steve Reed; 3-meter diving, Kyle Bass; platform diving, Robbie Stewart; 400-medley relay, Joey Weaver, Scott Steele, Reed and Ellis; and 400-free relay, Keith Ludwick, Mark Graves, Reed and Ellis.

*** **

WOMEN SET FIVE NEW RECORDS

The Lady Frogs' swimming and diving teams finished the season at the Southwest Conference meet in Austin by setting five new school records and finishing sixth in the team race.

Record setters were Katie Tredennick in 50 freestyle, 100 freestyle and 100 butterfly. Sara Dennis set a record in 200 butterfly, and a 200 freestyle relay record was set by Rachel Eason, Cathy Boyd, Cindy McClure and Tredennick.

"Katie was outstanding in setting three individual school records and establishing herself as one of the outstanding sprinters and butterflyers in the conference," said Coach Richard Sybesma.

TCU ADDS HOME ENERGY INSTITUTE

After offering a Science Principles and Energy Education Institute for elementary teachers each summer since 1979, TCU has added a Household Energy Principles Institute for secondary home economics teachers this year. Both institutes are sponsored by TU Electric.

The new home economics course, to be taught Mondays through Fridays July 10-28, will provide an overview of conservation practices, energy-related equipment, energy use patterns and how these will affect families. Participants will develop lesson plans to incorporate energy-related concepts into their present curriculum. Participating sixth- through twelfth-grade teachers may earn six hours of graduate credit in family studies/home economics. Director will be Kim Kamin of family studies.

The science and energy institute for teachers in first through sixth grades, established 10 years ago at the request of Texas Electric Service Company, will have trained almost 400 North Texas teachers at the close of this summer's June 12-30 course. Taught by C.A. Quarles and Richard Lysiak of physics with Luther Clegg of education, the workshop offers six hours of graduate credit in education. Topics include energy resources from fossil fuels, alternative energy sources and a nontechnical presentation on generation and utilization of electrical power.

*** **

SOCIAL WORK CLUB SPONSORS INFORMATION DAY

Community Connection Day, emphasizing volunteerism and local social work resources, is set for tomorrow (Wednesday). The Social Work Club is sponsoring the event as part of its observance of national Social Work Month. Information tables for 39 local nonprofit agencies will be set up in the Student Center lounge from 10 a.m. to 2 p.m.

"These are places where people can volunteer or where they can go for help," said club vice president Liz Kasperek. Club members also are volunteering this month at Loaves and Fishes, which provides meals to the homeless.

*** **

AT&T OFFICIAL VISITS BUSINESS SCHOOL

David L. Grimes, sales vice president for AT&T, is visiting the business school today (Tuesday) as part of the executive-in-residence program. Grimes is meeting with various classes and student groups starting at 8 a.m.

A resident of Dallas, Grimes is responsible for sales and marketing in an area including Texas, Oklahoma, Missouri, Alabama, Louisiana, Kansas, Mississippi and a telemarketing center for an eight-state area. He began his career with AT&T in 1970, when he joined Southwestern Bell Telephone Company in Oklahoma.

The executive-in-residence program brings business leaders to campus for periods ranging from one day to semester. The program is made possible by a gift from the David L. Tandy Foundation. Bernadette Murphy, a stock market analyst and executive director for M. Kimelman & Company in New York, will be the next executive-in-residence March 30-31.

ROAD WORKERS NAMED OUTSTANDING CHAPTER

Tending an alcohol-free bar at campus parties, presenting alcohol- and drug-related educational programs and sponsoring awareness weeks are a few of the activities that earned the TCU chapter of ROAD (Responsibility of Alcohol and Drugs) Workers the regional Outstanding Chapter Award.

The student organization was honored at the Feb. 25-26 conference of Area 6 of BACCHUS (Boost Alcohol Consciousness Concerning the Health of University Students). The region includes Arkansas, Oklahoma, Louisiana and Texas.

ROAD Workers promote responsible decision-making about alcohol through numerous projects. At the start of the school year they distributed key chains with a "Yield" sign that urges students to "Yield When Drinking." River Park Grille honors key chains with a designated driver symbol by providing free soft drinks to a group's designated driver. ROAD Workers also tended a mocktails bar at two campus events, brought in guest speakers for Health Enrichment Week in the fall and promoted safety during spring break with SafeBreak '89, a weeklong series of activities.

*** **

JANUARY GIFTS TOTAL \$805,135

Gifts to TCU during January totaled \$805,135. The figure includes gifts to Brite Divinity School, according to Vice Chancellor William Wehner's report to the trustee development committee.

The funds included:

- \$154,089 to the Annual Fund for TCU;
- \$45,653 restricted for special purposes;
- \$536,956 for endowment;
- \$68,436 for plant fund gifts.

*** **

LIBRARY LOOKS BACKWARD AND INWARD

If you've been around campus a while (or even if you're new to TCU and curious about its past), you'll get a kick out of spring displays in the Special Collections windows on the library's second floor.

The three displays include Springtime at TCU, a backward look by way of old photos and old Skiffs and Horned Frog yearbooks; Creative Artworks, 15 years of Image covers; and Special Collections Sampler, a little inside insight into the department's treasures. The displays will be on view through May, said Nancy Bruce of Special Collections.

*** **

CHILDREN'S WORKS SHOW STEADY GAIN

The expanding field of children's books handled by the University Store is the single category that shows steady growth in sales. According to Sonia Moreno, trade book buyer, this trend is reflected across the nation. Added most recently to the children's category is the "Ranger Rick" series. The bookstore stocks children's books ranging from bathtub books for toddlers to books for young adults.

GOLF, BOWLING EVENTS SET

Both golf and bowling tournaments for faculty and staff members are on the calendar for March 24.

Lost Creek Golf Club will be the site for the Good Friday Golf Tournament, due to begin at 9 a.m. with a shotgun start. The four-person scramble, teaming players of different ability levels, will also include two nearest-the-pin and longest-drive holes.

Due by Friday, the tournament cost of \$30 will include green fees, carts, snack and awards.

Bowlers will gather at Forest Park Lanes March 24 for individual and/or two-member team competition. Total cost for three games and shoes will be \$4 plus tax. Reservations are due by March 22.

Reservations can be made through the recreational sports department, Ext. 7945, where additional information is available.

*** **

TCU EXES MEET AT AGGIELAND

When Curt Wilson takes his Jazz Ensemble on tour tomorrow (Wednesday), he's heading for a meeting with the new director of the Texas A&M Band. It's sure to be a friendly session. Ray Toler played under Curt's direction when Ray was a TCU undergraduate and Curt a graduate student.

Ray, a retired lieutenant colonel, was chief of bands and music director for the Air Force. He takes over in the fall as Aggie band director and already has told Curt he plans to start a jazz program at A&M.

Hard-core jazz addicts may have trouble believing the tour program includes ballet routines performed to Duke Ellington's music by five dance majors-- Susan Stubbs of Sarasota, FL; Jonna Garrett of Corpus Christi; Sherry Jerome of Tempe, AZ; Lisa Draskovic of Kansas City, MO; and Michelle Tyer of Tyler. Stephanie Woods, who choreographed the Duke Ellington tribute, hoped she might find two or three dancers who would agree to use part of spring break on tour. Instead, her call for volunteers was answered by more than 15 young women!

The TCU Jazz Ensemble tour opens with a performance at Alamo Heights High School in San Antonio tomorrow, followed by a public performance Thursday at Klein Oak High School in Houston as well as concerts for students at Kashmere and MacArthur high schools there.

Late Sunday afternoon the Jazz Ensemble will play a public concert at Wyndham-Hershey Hotel in Corpus Christi under the auspices of the Texas Jazz Festival Society of Corpus Christi. The tour's concluding performance Monday night at A&M Consolidated High School will be guest-directed by Toler.

FROG CAGERS HOLD THIRD PLACE

With a regular season record of 16 victories and 12 losses, the Horned Frog cagers hold third place in this season's Southwest Conference standings. A 62-57 victory over SMU's Mustangs in Daniel-Meyer Coliseum March 4 ended the Purple and White regular season and gave the Frogs third seed in the SWC Post-Season Classic tournament that began March 10 in Dallas' Reunion Arena.

The third-place finish was the highest standing, excepting conference championships in 1986 and 1987, for a TCU team since a third-place finish in 1972. The 1983 and '84 teams tied for fourth with identical 9-7 records.

"It's great that we were able to finish third after finishing where we did last year," according to a Star-Telegram quote by Coach Moe Iba. In the coach's initial season last year, the Frogs won three of 16 league games.

*** **

NOTES ON FOLKS

CARLOS MIRANDA (political science) has been informed that "The Consolidation of an Authoritarian Regime: Paraguay, 1954-1988," a book manuscript which he authored, has been accepted for publication by Westview Press.

NELL ROBINSON (nutrition and dietetics) was the recipient of the Mabel Erwin Award for outstanding and lasting service to the profession of home economics at the Texas Home Economics Association annual meeting in Austin Feb. 23. At the same meeting LARK CALDWELL (design and fashion) presented "The Effect of Anatomical Structure, Pattern Design and Fabric."

LINDA CURRY (Harris College) attended the regional assembly of the international nursing honor society, Sigma Theta Tau, in Lexington, KY, Feb. 17-18. She represented the Beta Alpha chapter and was a program participant in a panel discussion on chapter development.

BILL SHELTON (TCU '67, Brite '71 and Ph.D. University of Kentucky '78) received the outstanding history teacher award given by the Mary Isham Keith chapter of the DAR. He is head of the history department in the upper school at Trinity Valley, and his proud father is GENTRY SHELTON (emeritus, Brite Divinity School).

"Current Approaches for Lowering Dietary Fat Including Fat Substitutes and Engineered Foods" was the topic of MARY HAGER (nutrition and dietetics) for a session she conducted March 10 at a day-long seminar in Dallas. On the theme of "Meeting Demands of the 1990s," the program was presented by the Dallas Dietetic Association.

RICHARD HANSON (geology) is co-author of a paper entitled "Multistage Melange Formation Within an Accretionary Complex, Diego Ramirez Islands, Southern Chile," published in the January issue of Geology.

MORE NOTES ON FOLKS

HAP KLINEFELTER (Counseling Center) was a recent contributor to the "Dear Doctor Ethics" column published by the American College Personnel Association's Commission VII Professional Development Committee. The column addressed the ethical dilemma posed by a client who refuses to deal with an alcohol problem when it clearly interferes with resolution of the client's presenting problem. The ethical question posed: "Is it ethical to terminate counseling with such a client?"

Hap and BARBARA HERMAN (Alcohol and Drug Education Program) presented a three-hour workshop entitled "Recovery Tools" Feb. 10. The workshop was part of the fifth annual "Family Album" Conference presented in Dallas by the Texas Association for Children of Alcoholics.

ARDEN HOPKIN (music) appeared as a guest artist on the SAI Musicale of American Music at Amon Carter Museum Feb. 26. He performed songs by Newell Kay Brown, Royce Isham and Fritz Berens, all composers residing in Texas.

BILL WATSON (chemistry) had two articles appear in the February issue of Acta Crystallographica: "The Structures of Three Strained Cage Molecules," with postdoctoral fellow ANTE NAGL of Yugoslavia and Alan Marchand of University of North Texas; and "1:1 and 1:2 Complexes between Diaza-18-crown-6 and 2,7-Dihydroxynaphthalene," with Ante and graduate student ETIM EDUOK.

Bill has been asked to participate in an International Compositae Conference at Kew Gardens in London and to participate in the preparation of "Genera Compositarum," which is an international venture for gathering, compiling and publishing all data available on the family Compositae. Specific areas of research will be identified in order that a more complete data base can be assembled by the 1994 deadline.

KEITH ODOM (English) read a paper, "Jane Austen's Rise to Fame," at the Conference of College Teachers of English (CCTE) in Austin Feb. 3. He has also been notified that the paper has been accepted for publication next fall in CCTE Studies.

An article by PENG FAN (mathematics) entitled "A Function-Theoretic Proof of a Theorem of Stampfli" has been published in Colloquium Mathematicum.

DAVID VANDERWERKEN (English) was installed as president of the state Conference of College Teachers of English for 1989-90 during its March 2-4 meeting in Austin. David's paper, "Lost in the Whorehouse: The Comic Chapters of 'Sanctuary,'" was the first to earn the CCTE's new American Humor Award.

KEITH ODOM (English) read a paper, "Jane Austen's Rise to Fame," at the conference. He has also been notified that the paper has been accepted for publication next fall in CCTE Studies.

Funeral services were conducted March 10 in Kerens for Ruth B. McCluney, retired teacher and mother of GENE McCLUNEY (anthropology). The first woman to attend Texas School of Mines, now UT-El Paso, she died March 6 in Fort Worth.

MEMORIAL HELD FOR WINESANKER

Memorial services were held March 7 at Beth-El Congregation for Dr. Michael Winesanker, emeritus professor of music who died March 4 in a Fort Worth hospital. The native of Canada joined the music faculty in 1946 and chaired that department from 1956 until his retirement in 1983.

Dr. Winesanker moved to TCU from the University of Texas at Austin, where he was professor of musicology, partly, he said, because he preferred TCU's "friendly atmosphere" and partly because of the late fine arts Dean T. Smith McCorkle's "great vision about development of music and other arts at TCU."

Dr. Winesanker rewrote the music department's curriculum to prepare for accreditation by the National Association of Schools of Music. He also built a music library at TCU, and the knowledge he gained about music literature resulted in 1977 in the publication of "A List of Books of Music," 1,700 titles compiled by Dr. Winesanker as chairperson of the library committee for the national association.

A piano student from the age of 9, Dr. Winesanker completed Toronto's 13-grade public school system at the age of 12. He graduated from the University of Toronto in 1933, becoming, at 19, the youngest Canadian ever to earn the Bachelor of Music degree. At the University of Michigan, where he earned the master's degree in 1941, the young pianist became interested in music history and musicology. Dr. Winesanker earned his doctorate in 1944 at Cornell, where his field of specialization was 18th-Century English comic opera.

A member of the board of both the Van Cliburn International Piano Competition and the Fort Worth Symphony, Dr. Winesanker was past president of the Youth Orchestra of Greater Fort Worth, Fort Worth Music Teachers Association and Texas Association of Music Schools. A life member of Phi Mu Alpha Sinfonia of America, Dr. Winesanker had chaired both the musicology and the editorial and publication committees of Music Teachers National Association. He also served the American Musicological Society as a national council member and as president and secretary of the Texas chapter.

A fellow of the American Council of Learned Societies, he had received research grants from that council as well as from the Carnegie Foundation and the TCU Research Committee. He was selected as a Minnie Stevens Piper Professor in 1976, a statewide award, and was chosen by TCU Mortar Board as a distinguished teacher in 1983. Earlier this spring the awards committee of the TCU Alumni Association voted unanimously to bestow the Honorary Alumnus Award upon Dr. Winesanker at the awards dinner April 8.

He and his wife, Miriam, also a native Torontan, were naturalized here in 1951. Mrs. Winesanker, formerly a member of the library staff, survives, along with two daughters, Miriam Levy of Los Angeles and Rebecca Hunter of Vancouver, British Columbia, Canada, and four grandchildren.
