Dear sir:

Are you still interested in
meteors? What do you pay for
them? And would you be inter-
ested in any number of them
that I could locate? I have
in my possession now several
rocks which I believe to be
meteors. They weigh 50 to 75 lb.
each. You bought one in this
same neighborhood last year.
May I hear from you at once.

Sincerely,
H. A. Audilet
Rt. 1

Yorktown, Texas.

P.S. If you plan to come to see the
rocks, let me know when to
expect you so that I'll be at home.
