Mr. Paul Walters  
813 Wateka Way  
Richardson, Texas 75080

Dear Paul:

I am sorry I can't give you anything definite about the Deport field. I have only a vague impression that it lies roughly along a north-south axis with the smaller meteorites at the south end so I would guess that it came from the south going north. I believe I got one fairly big iron from somewhat east of north but it never has been cut so I am not absolutely certain it is one of the Deports.

I think it would be a very good thing to alert the people involved in the dam construction if you can. You will likely find such people not too receptive because they are highly busy with their own enterprise. But it sure would not hurt to try because any interest you can stir up might pay off.

I wish I could go up there with you some weekend but the way my affairs are at present I am pretty well swamped.

Yours sincerely,

Oscar E. Monnig
