

Total weight of stone meteorite: it ^{don't have any way of weight} but the piece we have
about the same size as the one we sent a smaller piece
was broken off but was misplaced and haven't found it.

Is the rest of it in one piece? It was found about
half a mile north east

If not, how many pieces? of the house about a year
ago. It will be almost

Do not break it any further) impossible to look
for them until after

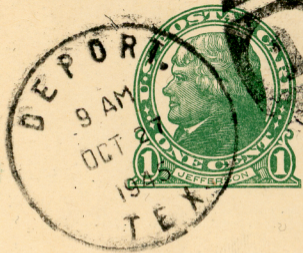

Which way & how far from your house was it found
due to so much rain
fields have grown
so much, both cotton
and weeds.

When was it found?

yours truly

Mrs. S. A. Williams
