Mr. Oscar E. Monnig
29 Chelsea Drive
Fort Worth, Texas 76115

Dear Mr. Monnig:

Ted Gangl, Planetarium Educator, tells me that the Duncanville, Texas stone referred to in your letter of March 23, 1967 is on display at Lakewood Elementary School through the month of March, 1967.

Ted said that he would call you and talk with you about this stone; however, I did want to drop you this note and express our appreciation for your interest and observation.

Your visits to our Museum are compliments to us and I hope you will come back often. In the meantime, our very best wishes come to you.

Sincerely,

HDC:dg
