Vol. 61, No. 2, Aug. 28, 1984

## LARGEST-EVER CAMPAIGN GOAL SET FOR '84

The largest goal in the seven-year history of the annual TCU/Tarrant County campaign and names of four civic-business leaders who will play key roles in the fund drive were announced at an Aug. 23 luncheon at TCU.

The 1984 goal of \$1,246,760 represents a 9.5 percent increase over last year, according to Dr. Alann Bedford, TCU trustee who is chairing this year's effort.

The campaign will open in October with a task force of 500 volunteers, the largest group yet to work for the University in the county-wide fund drive. Gift requests will be made for instructional and scholarship assistance, athletics, research and graduate studies along with general University support.

Serving as group managers for this fall's campaign will be Martin C. Bowen, William L. Adams, E. Earl Hatchett and Robert R. Lowdon.

At the initial meeting of the campaign cabinet and volunteer leaders, Dr. Bedford noted that "this institution can remain vibrant only to the extent that it is funded adequately through the giving of friends. Things are happening at TCU." A group manager in both the 1982 and 1983 efforts, she pointed to positive growth in such areas as "quality and quantity of student body, creation of new departments and long-range planning as the University prepares for the future."

During the luncheon in the Bass Building, brief overviews of the University were given by Vice Chancellors Paul W. Hartman, Bill Koehler, Leigh Secrest, and Howard Wible. Summary remarks were made by Chancellor Bill Tucker.

To be manager of the business and industry group, Bowen is president and chief executive officer of First City National Bank of Fort Worth. The A&M graduate, who completed the Juris Doctor degree at Baylor University School of Law, is a director of the Fort Worth Chamber of Commerce and Downtown Fort Worth Inc. He serves on the boards of the March of Dimes and Fort Worth Opera Association and is incoming president of the Fort Worth Symphony Orchestra Association. Leader of the business/industry group in 1983, he is a director of the Fort Worth Clearing House Association and a member of the International Committee of the North Texas Commission.

(continued)

Campaign Goal (continued)

Adams, president and chief operating officer of Champlin Petroleum Company, will lead the special gifts group. Holder of degrees in geology from the University of Kansas and UCLA, he is a director of the Arts Council of Fort Worth and Tarrant County, North Texas Commission and InterFirst Bank of Fort Worth, N.A. He chairs the Fort Worth Wildcatters and is active in the Boy Scouts of America National Council. He also is a member of the Kansas University Geology Associates and the Engineering Foundation Advisory Council of the University of Texas at Austin.

To head the parents and friends group, Hatchett is vice president for finance of General Dynamics, Fort Worth Division. The Texas A&M alumnus is active in United Way efforts, having served six years as division/group chairman. He heads the Fort Worth Area Committee for Employer Support of the Guard and Reserve and serves on the advisory council of the North Texas Commission on Issues Management. A TCU group chairman in 1982 and again in 1983, he was a member of the Salvation Army Advisory Board/Council in 1978-83 and has been on the Mayor's Executive Compensation Pay Committee.

Lowdon, who will head volunteers in the alumni group, is chairman of the board of Stafford-Lowdon Company. An alumnus of TCU and the University of Texas at Austin, he is a director of the Tandy Corporation. He is a Chancellor's Associate member of TCU's Addison and Randolph Clark Society. In 1983 he was presented the valuable alumnus award by the TCU Alumni Association.

PHILADELPHIA ORCHESTRA HIGHLIGHTS NEW PROGRAMMING ON KTCU

The Philadelphia Orchestra, one of the country's "big five," will join the roster of distinguished musical organizations to be heard on KTCU-FM this fall. One of the premiere orchestras in the world, the Philadelphia Orchestra has been long respected for its virtuosity, flexibility and sheer richness of color, especially in its world-renowned string section. Under Ricardo Muti, the Philadelphia Orchestra has developed a flair for drama and contrast.

The broadcasts are made possible by a grant from the insurance group CIGNA and will be heard on KTCU-FM 88.7 at 6 p.m. each Sunday beginning Oct. 7. Also on Sunday are the broadcasts of the New York Philharmonic, sponsored by EXXON at 1 p.m., and the Chicago Symphony Orchestra, sponsored by AMOCO at 8 p.m. Heard this summer on KTCU have been the broadcast series of the Lyric Opera of Chicago sponsored by Beatrice Foods, and the broadcasts of the Canadian Opera Company.

Live broadcasts of the Monday night concerts of the TCU music department are scheduled to begin Sept. 10. Caio Pagano, pianist from Brazil who has just joined the piano faculty, will be the soloist for this opening concert hour series. The concert in Ed Landreth Auditorium, free and open to the public, will be broadcast live by KTCU-FM starting at 8 p.m.

TUCKER ANNOUNCES RESTRUCTURE PLANS

Reorganizational plans at the executive level, occasioned by the retirement of Vice Chancellor Howard Wible next summer, were announced by Chancellor Bill Tucker during the Aug. 21 faculty/staff luncheon. Units reporting to Dr. Wible in his position as vice chancellor for student and administrative services are the student life division, physical plant, personnel and registrar's offices.

After consideration of several alternatives, the decision has been made to divide the current responsibilities between a vice chancellor for student affairs and a vice chancellor for administrative services, effective next June. "In considering several alternatives," Dr. Tucker noted, "it seems that student affairs should be represented at the vice chancellor level."

Reporting to the vice chancellor for administrative services would be the physical plant, personnel and business services. The latter currently reports to Vice Chancellor Leigh Secrest.

As of Sept. 4, the chancellor announced, the registrar's office will begin reporting to Vice Chancellor Bill Koehler. He noted, too, that a national search will begin this fall for persons for these two vice chancellor positions.

\*\*\* \*\*

FACULTY SENATE SESSIONS START SEPT. 6

Members of the University community are invited to attend Faculty Senate meetings beginning at 3:30 p.m. Sept. 6 in the Sid Richardson Board Room. Subsequent sessions, at the same time and place, will be on Oct. 4, Nov. 1, Dec. 6, Feb. 7, March 7, April 4 and May 2.

Faculty Senate Chair Don Jackson reminds, too, of the question time during Senate meetings. Any member of the University community may direct a question to be answered by the chancellor or his designee. Questions should be relevant to the state of the University and should be submitted to the Senate executive committee for review prior to submission to the chancellor. Questions may be sent to Don at Box 32873 to arrive by the following dates: Sept. 17, Oct. 15, Nov. 12, Jan. 21, Feb. 18, March 18 or April 18.

Senate officers serving with Don are Ed McNertney, vice chair; Neil Daniel, secretary; Bill Jurma, assistant secretary; and Doug Newsom, immediate past chair, who serves as an ex officio member along with the chancellor and Vice Chancellor Bill Koehler. Other 1984-85 Senate members are Steven Cole, Betsy Colquitt, Rich Forrer, Jean Giles-Sims, Ken Lawrence, Wayne Ludvigson, Margaret McWhorter, Pat Paulus, Frank Reuter, Spencer Tucker, Dick Waits, John Wortham, David Gouwens, Walter Naff, Glenn Routt, Geraldine Dominiak, Frank Murph, Henry Oppenheimer, Etta Miller, Dan Southard, Bill Vanderhoof, Peter Hodgson, Noah Knepper, Joel Persky, Emmet Smith, Linda Curry, Mildred Hogstel, Rhonda Payne, Charles Becker, Don Coerver, Landon Colquitt, James Henley, Sanoa Hensley, Keith Odom, Nell Robinson and Daryl Schmidt.

ARMY RESEARCH OFFICE FUNDS JOINT TCU-SMU PROJECT

A \$255,000 research contract to TCU, about 40 percent of which will be sub-contracted to SMU, has been awarded to chemists Bob Neilson and Patty Wisian-Neilson, now of SMU, by the U.S. Army Research Office. Effective Aug. 1, the three-year contract is for the proposal "Synthesis and Characterization of New Phosphazene Polymers". The additional funds, amounting to an annual increase of some 60 percent, will allow continuation and expansion of the project which began with ARO funding in 1977.

Bob's campus coworkers on the project include postdoctoral associate Rahim Hani and graduate students Urszula Wettermark and Ken Waters, while Dr. Aroop Roy (TCU Ph.D., 1984) will be working at SMU with Patty. SMU polymer chemist John Meister also will be collaborating in the multifaceted study.

Primary objectives of this effort are to further study the scope of the newly developed method (U.S. Patent 4,412,053) for preparing the phosphorus-nitrogen polymers known as poly (phosphazenes) and to more fully characterize and to study the properties of these new materials with an eye toward future commercial applications. In general, phosphazenes display a variety of interesting and potentially useful properties including flame retardancy, low-temperature flexibility, resistance to chemical attack and stability toward heat and solar radiation.

In addition to funds provided by ARO, the Neilson research group is supported on other projects by the U.S. Office of Naval Research, the Robert A. Welch Foundation and the TCU Research Fund. Patty, recipient of a National Science Foundation Visiting Professorship for Women in Science, will be working on another aspect of phosphazene chemistry this year at the Massachusetts Institute of Technology.

LABOR DAY BRINGS SCHEDULE CHANGES

With campus offices closed and classes dismissed Monday for Labor Day, schedule changes will be in effect in the library and the Rickel Building.

The library will be open 9 a.m. to 5 p.m. on Saturday. Closed on Sunday, the building will be open from 9 a.m. to 5 p.m. on Monday before resuming the fall schedule on Sept. 4.

The Rickel Building will be open from 7:30 a.m. to 10 p.m. on Friday and 9 a.m. to 10 p.m. on Saturday. On Sunday and Monday, the building will be open from 1 to 10 p.m., although no office hours will be observed those days. Pool hours will be 11:30 a.m. to 1 p.m. and 5:30 to 9 p.m. on Friday and 1 to 9 p.m. Saturday through Monday before resuming the fall schedule on Sept. 4.

Food service hours will change only on Labor Day, when Worth Hills, the Faculty Center and Edens Greens will be closed. The Student Center cafeteria will be open from 7 a.m. to 6 p.m. and the Snack Bar from noon to 9 p.m. Normal weekend schedules will be observed on Saturday and Sunday.

NASA INVITES SHERIDAN TO SHUTTLE LAUNCH

John Sheridan (management) and his wife, Charline, will be special guests of NASA at the Kennedy Space Center for the Aug. 29 launch of the space shuttle. In extending the invitation to attend the maiden launch of NASA's newest orbiter, Discovery, Director William Lucas of the Marshall Space Flight Center noted the impact that John has had on NASA's management practices and the managerial competence of the Marshall staff.

In 1980 John designed the Management Development Program (MDP) for NASA and has served as academic program director of MDP for the last four years. Nearly 300 science and engineering managers have now attended MDP, which has been evaluated as one of NASA's most effective training programs. The Marshall Center's 1983 annual report described MDP as one of six key accomplishments that have significantly enhanced the work on the nation's space program.

On the Discovery flight, Marshall's Spacelab Payload Project Office has management responsibility for the Office of Aeronautics and Space Technology pallet carried in the cargo bay. This payload features a 102-foot-long solar array and NASA's large format camera for precision mapping of the earth's surface. Three communication satellites will also be deployed. Marshall scientists also will conduct experiments to study the phenomenon of "shuttle glow" during the Discovery flight.

In mid-November, John and Kirk Downey (management) will conduct MDP IX for NASA.

\*\*\* \*\*

SCULPTURE TALK IS SEPT. 5

Oklahoman Ken Little, whose mixed media sculpture is on exhibit through Sept. 14 in Brown-Lupton Student Center Gallery, will lecture Sept. 5 at 10 a.m. in the Moudy Building. Little's slide/lecture has been postponed from an earlier announced date of Sept. 3 because of the Labor Day holiday. On Sept. 5, he also will attend a reception from 4:30 to 6 p.m. in the Gallery.

Little, a native Texan who holds the B.F.A. from Texas Tech and the M.F.A. from the University of Utah, has taught at the University of South Florida, the University of Montana and the University of Oklahoma, where he has headed the sculpture area in the School of Art. Until 1980, he was known primarily for his work in ceramics, but recently he has been exploring the use of "found materials"--shoes, clothes, paper forms and old tires. His sculpture, critics have noted, is both funny and sad. His animals, made of discards, convey a sense of isolation and rejection, much like the discarded materials. Yet they show humor in the contradiction of their serious and stately poses with old shoes and rags used in the sculpture.

To be included in the TCU show are the Monitor and the Merrimac, both fittingly situated on boat bases. Atop the Merrimac is a blue boar, heavy shoe heels stuck on his back. The Monitor, also shoe-armored, is a sneaky-looking wolf, his leather skin puckered as if he had been in the water too long. The Little show will be open from 11 a.m. to 4 p.m. weekdays, 1-4 p.m. Saturdays and Sundays.

TCU IN THE NEWS

"Studies showing that teacher candidates score low on academic tests may be overstated," was among comments by Dean JOHN MANGIERI (education) quoted in the July 15 story in the Dallas Morning News entitled "Problems in Teaching Teachers."

Among stories in the June issue of Pediatric News was one dealing with the findings of CORES, directed by KATHY DOLAN, on child sexual abuse in two Texas counties.

"With some rules and instruction, cooking can be child's play" was the subhead in the full-page Star-Telegram story July 11 about TCU's continuing education class on Cooking for Kids, taught by SUSAN NASH TODD. The course also drew attention from KXAS-TV's Jack Helsel for a July 17 story.

The Texas Preschool Screening Inventory by JULIAN HABER (adjunct, Miller Speech and Hearing Clinic) was the subject of a story explanation in the June issue of the American Academy of Pediatrics in Phoenix. His interview also went on the pediatric organization's network for America Health Network.

The film about LILI KRAUS, emeritus artist-in-residence, was the subject of a Janice Jarvis feature in July 4-5 issue of the Star-Telegram's EXTRA.

BILL JURMA (speech communication) is a sought-after source in the area of political communication. He was on television twice on July 13--in a 12-minute report on Sammons during the morning and at noon on Channel 11. Bill also was interviewed on the Southern Baptist TV channel about communication afforded by office furniture, an interview that was aired twice on July 20 and twice on July 23.

In the wake of the announcement that Democratic candidate Walter Mondale had picked a female running mate, UPI's Dallas bureau contacted Bill for comments on July 12. The next morning, he was quoted by Carolyn Raiser on Channel 5's early morning news.

"Consortium merges resources" was the headline on the July 18-19 Star-Telegram EXTRA story about the School of Education's program for Metroplex private schools. The plan, inaugurated in 1982, grew out of a concern that the more than 212 private schools in the area had no way to interact with each other, according to JOHN ARNN (education). John was also quoted in that same issue's story on area private secondary schools, noting that both private and public schools "have a solid place in our educational system...it would be a very significant loss if anything ever happened to either."

"Researcher has unwavering goal: to help mankind" was the headline for the July 20 Star-Telegram story on SAUL SELLS (emeritus research professor) and his research career as well as his 20 years as director of TCU's Institute of Behavioral Research.

Communications Briefings, a monthly idea source for decision makers, is among the latest publications to take note of the study of impressions made by office desks by BILL JURMA (speech communication). The article was reprinted from Family Weekly. Bill was interviewed during Republican Convention week by both Channel 11 and Sammons concerning the convention and political images as well as what's ahead for November.

MORE TCU IN THE NEWS

A July 13 story in the Dallas Morning News carried extensive quotes from historian PAUL BOLLER (emeritus) in an article titled "A female VP wouldn't suffer obscurity, historian says." He also offered humorous statements on the importance of the vice presidency, such as the initial vice president John Adams, calling it "the most insignificant office that ever the invention of man contrived."

Elmer Kelton's "The Time It Never Rained," recently reprinted by TCU PRESS, has been reviewed in the syndicated newspaper column Lone Star Library.

"Novelty could take spotlight from Mondale" was the headline in at least one of the state's papers from the story circulated across the country by United Press International on studies of the various vice presidential aspirants done by BILL JURMA (speech communication). Columnist Irv Farman devoted his entire July 20 column in the Fort Worth News-Tribune to Bill's study of the candidates' non-verbal characteristics.

The variety of persons coming to campus during the summer was the subject of a feature by Doug Nogami in the July 23 Dallas Morning News. TCU's assortment of non-routine events, described by facilities coordinator JILL ESTES, was included along with those from North Texas, SMU and TWU.

In his editorial July 25 entitled "Aloft on the Wings of Mud," Dallas Morning News writer Bradley Miller took note of an article in the July 16 U.S. News & World Report that said "experts concede that today's voters are much better informed about candidates and issues than their forefathers." Miller gave credit for the article drawing on historian PAUL BOLLER's "Presidential Campaigns."

In the July 4-11 issue celebrating its centennial year, The Christian Century includes a poem by BETSY COLQUITT (English). Entitled "Afternoon Coming," the work originally appeared in the publication's Nov. 2, 1960, issue. Other "names" in the special issue included Kyle Haselden, Richard Niebuhr, Karl Barth, Dean Peerman, Paul Tillich, Reinhold Niebuhr, Martin Marty, Amos Wilder, Harry Emerson Fosdick and Theodore Gill.

"Basics remain the bottom line, TCU basketball coach says" was the headline on James Masters' story on JIM KILLINGSWORTH that appeared in the July 25-26 issue of the Star-Telegram EXTRA.

Also in the July 26 Dallas News was a feature about KTCU-FM's "Anything Goes" program hosted by John Davies, who will be conducting the show alone when it returns to the air after Labor Day. His former co-host, Harry Crawford Jr., recently drowned.

Getting ready for commencement is no easy task...and the efforts it requires were shown in the Aug. 10 Star -Telegram. Shown straightening chairs for the summer event was TOM BARTLETT (buildings and equipment).

TCU students participating in the two-week course in conjunction with the GOP convention in Dallas were interviewed, along with director GENE ALPERT, by KTVT-TV and KXAS-TV of Fort Worth and the CBS station from Houston on Aug. 15.

MORE TCU IN THE NEWS

The September issue of FORT WORTH magazine notes the semi-dramatic film about emeritus artist-in-residence LILI KRAUS and features an article by KIRK DOWNEY (management) entitled "Should Fringe Benefits Be Taxed By The Federal Government" on its Executive Forum page.

Another alumnus, BOB SCHIEFFER, was in the news recently in a feature the Star-Telegram did on CBS News chief Washington correspondent and his talent for painting and drawing. In Dallas for the GOP convention, Bob talked with Jerry Coffey about his interest in art.

TCU's two-week symposium in conjunction with the GOP convention drew attention in the Aug. 17 issue of the Star-Telegram. Quoted was its director and originator, political scientist GENE ALPERT.

"Growing Up with the American West: the Fiction of Jack Schaefer," a 1973 essay by FRED ERISMAN (English), has been reprinted in Shane: The Critical Edition, published by the University of Nebraska Press. The edition restores the original text of Schaefer's classic novel and adds to it "the best critical essays about Schaefer and about 'Shane'.

Thanks to efforts of BOB WEIR (computer science), Fort Worth residents will be able to "tune in" to the Aug. 29 voyage of the Discovery space shuttle. Sammons of Fort Worth will broadcast almost continuous coverage on public access cable Channel 8 by using the NASA network. Bob, who chairs the Institute of Electrical and Electronic Engineers--Computer Society of Fort Worth and is a ham radio operator, read of the NASA channel and contacted Sammons' Bryan O'Hara, a TCU alumnus, about carrying the space shot.

"Ancient rites renewed: A Greek-inspired 'festival of life' was the headline in the Aug. 15 Star-Telegram for the Perspectives column written by NEIL DANIEL (English) in reflection on the start of the athletic contests.

Alumnus DAVID TUBB '77 took third-place honors in mid-August at the National Rifle Association's Vandenberg Trophy match held at Camp Perry, OH, according to an Aug. 16 report in the Star-Telegram. David was an All-American rifle shooter for the Horned Frogs.

"Bicycling FW Couple Planning 1985 Galveston Bike Jaunt" was the headline Aug. 20 for the Monday News-Tribune feature by alumnus Frank Perkins on the recent 29-day, 1,800-mile trip by Mary and LUTHER CLEGG (education) from Fort Worth to Canada. More long-range trips are on the planning board for the couple.

Excerpts from historian PAUL BOLLER's "Presidential Campaigns" were featured daily in the Star-Telegram morning and afternoon issues during the GOP convention week in Dallas. Presidents included, in order beginning Aug. 19, were Truman, Washington, Harrison, Cleveland, Harding, Grant, Adams, Polk, Theodore Roosevelt, Nixon, Jackson, Clay and Reagan.

TCU's microcomputers in education course offered during the summer, along with reactions to it, was spotlighted in the Aug. 18 Star-Telegram's Technology section. The story, quoting educational specialist GRAYDON DAWSON, noted that by September 1985 all Texas teachers must be able to pass a computer literacy test.

# CALENDAR OF EVENTS

---

- Aug. 28 --Last day for late registration, changing or adding courses.  
--Laser art show and sale, Student Center, continuing through Aug. 29, 10 a.m.-4 p.m.  
--Photography Invitational, Moudy Building exhibition space, continuing through Sept. 28, 11 a.m.-4 p.m. weekdays, 1-4 p.m. Saturdays and Sundays.  
--Sculpture by Ken Little, Brown-Lupton Gallery, continuing through Sept. 14, 11 a.m.-4 p.m. weekdays, 1-4 p.m. Saturdays and Sundays.  
--Career Planning and Placement Center Finding a Parttime Job Workshop, Student Center 218, 11 a.m.
- Aug. 29 --Howdy Week Programming Council mixer, Student Center ballroom, 4 p.m.
- Aug. 31 --Last day to withdraw from class and receive 100% tuition refund.  
--Fall Honors Retreat, YMCA Camp Carter, continuing through Sept. 1.
- Sept. 3 --Labor Day holiday; University offices closed.
- Sept. 13 --Photo session for faculty/University staff, Student Center 215, 11 a.m.-1 p.m.

NOTES ON FOLKS

Specific reference to MORRISON WONG (sociology) and his work on Asian immigration to the United States was made by Senator Daniel P. Moynihan (Democrat-New York) in an address on "The Chinese in America" presented on Aug. 4 to the 1984 convention of the Taiwan Benevolent Association of America in New York City.

SPENCER WERTZ (philosophy) co-authored an article on theorem proving in a formal system (4.5) which appears in the International Logic Review, published by Centro Superiore di Logica e Scienze Comparete of Bologna, Italy.

JOHN SHERIDAN (management) was distinguished visiting professor at the Graduate School of Professional Accounting at Northeastern University in Boston during June and July. At the August meeting of the National Academy of Management, also in Boston, John was named to his third three-year term on the editorial board of The Academy of Management Journal. The new editorial board will serve through July 1987.

BOB FRYE (English) is author of an essay in a special edition of Southwestern American Literature, Spring 1984, which focuses on the novelist Elmer Kelton. Bob's essay is entitled "Car-Roping, Tall Tale-Telling and Finding Direction Out by Indirection: Humor in Elmer Kelton's The Good Old Boys."

CAROL STEPHENSON (nursing) spoke on "Nursing Advances--Nursing Issues" in Ridgecrest, NC, in July and on "Cardiopulmonary Assessment" at Glorieta, NM, in August. Both were to groups representing the Baptist Nursing Fellowship, of which she is national vice president.

BRIAN GRAY (decision sciences and finance) and Robert Ling of Clemson presented the Technometrics Invited Paper at the 145th American Statistical Association Annual Meeting Aug. 12-16 in Philadelphia. Their paper, "K-Clustering as a Detection Tool for Influential Subsets in Regression," will be published in the November issue of Technometrics.

ARLENE L. SOLLENBERGER (music) has presented a memorial carillon to the Osborne, KS, United Methodist Church with the following presentation statement: "A profound respect and appreciation for the spiritual and the musical contributions made to the Osborne United Methodist Church by the late Versa D. and Jesse C. Sollenberger is being acknowledged by the presentation of this gift given by their daughter, Arlene L. Sollenberger."

PERSONNEL LISTINGS:

Job listings in Personnel as of August 22, 1984. Interested applicants should contact the Personnel Office, 2913 Princeton, Ext. 7791. Applications accepted for jobs currently posted between 8 A.M. and 5 P.M. For updated job information, call the job tape number, 921-7791. Please direct any questions or comments to the Personnel Office, Ext 7790.
