TCU, FORT WORTH HAIL BACH

TCU and Fort Worth will join together April 14-16 to pay tribute to one of the world's most original and productive musicians, Johann Sebastian Bach. The TCU Bach Tercentenary Festival and the 16th observance of TCU/Fort Worth Week will bring to the campus three internationally known music figures--New York Times cultural correspondent Harold C. Schonberg; Dr. Elinore Barber, who heads the Riemenschneider Bach Institute and edits the journal Bach; and English organist Peter Hurford, founder of the International Organ Festival and particularly well known for his interpretation of Bach.

TCU/Fort Worth Week, designed to call special attention to the partnership of the University and the city that has been its home for 75 years, is co-sponsored by TCU, the Fort Worth Chamber of Commerce and the TCU Department of Music. The three days are crowded with special events, all open to the public and all free except the TCU/Fort Worth Week luncheon at noon April 15.

Dr. Barber, professor of music at Baldwin-Wallace College Conservatory of Music since 1969, will open the festival at 3 p.m. Sunday, when she lectures in TCU's Moudy Building 141 North on Bach's great oratorio, the St. Matthew Passion. The Bach Institute, which was formed around Baldwin-Wallace College's annual Bach Festival and its valuable Riemenschneider Memorial Bach Library, is a research and performing center where various Bach colloquia, seminars, concerts and lectures are presented annually. The journal Bach has been honored with an ASCAP-Deems Taylor Award for excellence. At 7 o'clock that same evening in Ed Landreth Auditorium, the St. Matthew Passion will be performed by the TCU Choral Union and the TCU Orchestra, augmented, with guest soloists Terry McKenzie Preskitt, soprano; Beverly Wolff, alto; Ira Schantz, tenor; and Charles Nelson, bass. Ron Shirey will conduct.

Schonberg, who has been cultural correspondent for The New York Times since his resignation as senior music critic in 1980, will address the TCU/Fort Worth Week luncheon at 11:45 a.m. Monday on "Facing the Music." A native New Yorker who holds degrees from Brooklyn College and from New York University, Schonberg obtained his first job as a music critic and associate editor with the American Music Lover. After four years of Army service in World War II, he became a critic for the old New York Sun, then joined The Times in 1950.

TCU, FORT WORTH HAIL BACH (continued)

TCU/Fort Worth Week will continue at 4 p.m. Monday in Moudy Building 141 North, when Dr. Barber lectures on "Bach at the End of the 20th Century." At 8 p.m. that day in Ed Landreth Auditorium Peter Hodgson, chairman of the TCU Department of Music, will lecture on Bach's Musical Offering and direct a performance of the chamber music. Playing the harpsichord, he will be joined by faculty members Cynthia Folio, flute; Jeffrey Cox, violin; and Harriet Woldt, cello.

On April 16, Dr. Barber will lecture at 3:30 p.m. in Beasley Hall Room 109 about Bach's connection with Dr. Albert Schweitzer, an appearance co-sponsored by TCU's music and religion-studies departments. Dr. Barber first met Dr. Schweitzer in the summer of 1949 and the following year presented the first of many Albert Schweitzer Hospital benefit concerts and lectures. In 1951 and again in 1954, she was invited to spend time in the Schweitzer home, where she received daily "Bach coaching" from Dr. Schweitzer. Dr. Barber currently is engaged in a research project that includes further investigation of Schweitzer's work (from the 1890s to the 1960s) concerning the "Bach tradition" restoration movement.

Closing event of the Bach Festival will be a recital of Bach's organ works at 8:15 p.m. April 16 in Overton Park United Methodist Church, 5001 Briarhaven Rd. His appearance is made possible by the Sue Wheeler Smith Memorial Endowment Fund at TCU. Hurford, a graduate of Cambridge in music and law, was master of music at St. Albans Cathedral for 21 years. The International Organ Festival founded by him was described by The Diapason as "the greatest festival of its kind in Europe." Hurford's 40 recordings include the complete Bach organ works on the Argo label. Volume Three of that series was named "Best Instrumental Recording of 1979" by England's prestigious magazine The Gramophone.

LIDDY TO SPEAK HERE APRIL 17

G. Gordon Liddy of Watergate fame, who has been described by The New York Times as "the number one speaker in the country," will be a TCU Forums speaker at 8:15 p.m. April 17 in Ed Landreth Auditorium. Admission is \$1 with TCU ID, \$3 for all other tickets purchased in advance at the Student Center information desk and \$4 at the door for non-TCU audience members.

Liddy, whose refusal to talk about his role in the Watergate scandal sent him to prison for a longer term than any other Watergate figure, was sentenced to 20 years and had served nearly five before President Carter reduced the sentence. He told his story in an autobiography entitled "Will," published in the spring of 1980.

Son of a successful Manhattan attorney, Liddy grew up in Hoboken, NJ, and was graduated from Fordham Law School, where he was on the Law Review. He served two years in the Army and five years as a special agent for the FBI before joining his father's law firm in 1962.

Liddy campaigned hard for Richard Nixon's election to the presidency, leading to an appointment as a special assistant in the Treasury Department in 1969. Two years later, he shifted to the White House "plumbers" group, which had as its priority to discredit Daniel Ellsberg, whose release of the Pentagon papers to The New York Times had infuriated Nixon.

The plan to break into Democratic national headquarters in the Watergate Hotel was worked out by Liddy and Howard Hunt, who recruited five Cuban Americans and James McCord, chief of security at the Committee to Re-Elect the President. A May 1972 break-in succeeded, but the listening device planted there did not work right. Purpose of the second Watergate break-in, Liddy wrote in his book, was "to find out what (Democratic National Chairman Larry) O'Brien had of a derogatory nature about us, not for us to get something on him or the Democrats." It was the second break-in--on June 15, 1972--that resulted in the arrest of the five participants. In more than 4½ years behind bars, Liddy was shuttled in and out of eight prisons. He was baited by black inmates because he was white and because of his work for Nixon, yet Liddy won the respect of many of his fellow convicts by providing them effective legal advice and by showing that he also was tough.

Liddy's message is that strength of will is the bottom line of success. "There are two ways to look at life," he says. "One is to ask: 'How will I survive?' That's a poor way. You should ask: 'How am I going to prevail?'"

LIBRARY HONORS MRS. ERISMAN, WILSONS

Mrs. Fred Erisman Sr. of Longview received the Carol Jim Renshaw Award and Mr. and Mrs. Jack Wilson of Fort Worth the 1985 Friend of the Year Award at Friends of TCU Libraries annual dinner meeting March 29 at Colonial Country Club.

Mrs. Erisman (the former Dorothy Barnhart of the Class of 1930) and her late husband, Judge Fred Erisman Sr., a 1929 graduate) created an endowment fund at the library in 1969 for the purchase of items not ordinarily included in various University departmental budget allocations. Through Mrs. Erisman's continuing gifts, says Paul Parham, the Dorothy and Fred Erisman Library Endowment Fund has been increased significantly. The Carol Jim Renshaw Award is named for the founding president of the Friends organization.

Jack (B.A. '63) and Robbie (B.A. '66, M.A. '73) Wilson were cited as co-recipients of the Friend of the Year Award for continuing strong support of Friends of the TCU Libraries, particularly for their matching gift to the organization's life membership campaign and for their own life membership. Wilson currently is vice president of the Friends, a post he also held in 1980-82.

ROTC CADET RECEIVES PARTRIDGE AWARD

A junior biology major and a man born 200 years ago shared the spotlight recently as the Department of Military Science honored the memory of Captain Alden Partridge, who developed the concept on which Army ROTC is based. From Creve Coeur, MO, Cadet Stephen Bernstein received the Alden Partridge Award certificate.

"Steve best exemplifies Partridge's philosophy of sound body and sound mind," said Lieutenant Colonel Bruce Stacy of Army ROTC. "He is an outstanding cadet--physically, intellectually and personally. He has a 3.9 grade-point average and is a leader who settles for nothing short of excellence."

Partridge believed military instruction should be an integral part of the college curriculum and offered military theory at Norwich University, which he founded in 1817. The idea of adding military subjects to traditional college offerings spread rapidly. By the end of the 19th Century, 105 colleges and universities in the United States did so. As a result, approximately 90,000 ROTC officers were in the reserve pool when the United States entered World War I. More than 100,000 ROTC officers served as commanders during World War II.

Currently Steve is among more than 12,000 students attending college across the nation under full-tuition Army ROTC scholarships. He credits Army ROTC with helping him learn to deal with academic pressures as well as teaching him how to lead and take the initiative. After completing his undergraduate work, Steve hopes to attend medical school and become a U.S. Army medical doctor.
